

combustion turbine will be fed to a heat recovery steam generator. The output from each heat recovery steam generator will be fed to a single steam turbine that has the potential to generate 164 megawatts. Each heat recover steam generator will incorporate a selective catalytic reduction system to remove nitrogen oxides from the combustion turbine's exhaust gas. The combustion turbines units will be shop-built and shipped to the site as modules that will be installed on steel-reinforced concrete foundations. Related improvements will include the construction of a new electric transmission station and an 18.6-mile, 230 kV transmission line circuit between the Gantt Plant and the Opp Switching Station. The Southeast Alabama Gas District will construct a 60-mile-long, 20-inch diameter natural gas pipeline from Flomaton, Alabama, to the Gantt site to provide the natural gas to power the plant. RUS will not provide financing assistance for the natural gas pipeline.

Based on its environmental assessment of the project, RUS has concluded that the construction and operation of the 496 megawatt plant at the Gantt site would have no significant impact to the quality of the human environment. Therefore, RUS will not prepare an environmental impact statement for its action related to this project.

### Submission For OMB Review; Comment Request

DOC has submitted to the Office of Management and Budget (OMB) for clearance the following proposal for collection of information under the provisions of the Paperwork Reduction Act (44 U.S.C. chapter 35).

*Agency:* U.S. Census Bureau.

*Title:* 2000 Panel of the Survey of Income and Program Participation, Wave 2 Topical Modules.

*Form Number(s):* SIPP-20205(L), SIPP/CAP automated instrument.

*Agency Approval Number:* 0607-0865.

*Type of Request:* Revision of a currently approved collection.

*Burden:* 25,467 hours.

*Number of Respondents:* 26,250.

*Avg Hours Per Response:* 30 minutes.

*Needs and Uses:* The Census Bureau conducts the Survey of Income and Program Participation (SIPP) to collect information concerning the distribution of income received directly as money or indirectly as in-kind benefits. SIPP data are used by economic policymakers, the Congress, state and local governments, and Federal agencies that administer social welfare and transfer payment programs such as the Department of Health and Human Services, the Department of Housing and Urban Development, and the Department of Agriculture.

The SIPP is a longitudinal survey, in that households in the panel are interviewed at 4-month intervals or waves over the life of the panel. The duration of a panel is typically 3 to 4 years. The length of the 2000 SIPP Panel is subject to the approval of budget initiatives but is currently scheduled for one year and will include three waves of interviews.

The survey is molded around a central core of labor force and income questions, health insurance questions, and questions concerning government program participation that remain fixed throughout the life of the panel. The core questions are asked at Wave 1 and are updated during subsequent interviews. The core is supplemented with additional questions or topical modules designed to answer specific needs.

This request is for clearance of the topical modules for Wave 2. The core questionnaire and topical modules for Wave 1 were cleared previously. The topical modules for Wave 2 are: Work Disability, Education and Training History, Marital History, Fertility History, Migration History, and Household Relationships. Wave 2 interviews will be conducted from June through September 2000. Additionally, a reinterview for quality control purposes will be conducted with a small sub-sample of respondents throughout the life of the panel.

*Affected Public:* Individuals or households.

*Frequency:* Every 4 months.

*Respondent's Obligation:* Voluntary.

*Legal Authority:* Title 13 U.S.C., Section 182.

*OMB Desk Officer:* Susan Schechter, (202) 395-5103.

Copies of the above information collection proposal can be obtained by calling or writing Linda Engelmeier,

DOC Forms Clearance Officer, (202) 482-3272, Department of Commerce, room 5033, 14th and Constitution Avenue, NW, Washington, DC 20230 (or via the Internet at LEngelme@doc.gov).

Written comments and recommendations for the proposed information collection should be sent within 30 days of publication of this notice to Susan Schechter, OMB Desk Officer, room 10201, New Executive Office Building, Washington, DC 20503.

Dated: January 31, 2000.

### Final Results of Expedited Sunset Review: Fresh and Chilled Atlantic Salmon From Norway

**AGENCY:** Import Administration, International Trade Administration, Department of Commerce.

**ACTION:** Notice of Final Results of Expedited Sunset Review: Fresh and Chilled Atlantic Salmon from Norway.

**SUMMARY:** On July 1, 1999, the Department of Commerce ("the Department") initiated a sunset review of the countervailing duty order on fresh and chilled Atlantic salmon from Norway (64 FR 35588) pursuant to section 751(c) of the Tariff Act of 1930, as amended ("the Act"). On the basis of a notice of intent to participate and adequate substantive comments filed on behalf of domestic interested parties, as well as inadequate response (in this case, no response) from respondent interested parties, the Department determined to conduct an expedited (120 day) review. As a result of this review, the Department finds that termination of the countervailing duty order would be likely to lead to continuation or recurrence of a countervailable subsidy. The net countervailable subsidy and the nature of the subsidy are identified in the Final Results of Review section of this notice.
