Native American Graves Protection and Repatriation Review Committee: Findings

AGENCY: National Park Service, Department of the Interior.

ACTION: NAGPRA Review Committee Advisory Findings and

Recommendations Regarding Human Remains and Associated Funerary Objects in the Control of Chaco Culture National Historical Park.

After full and careful consideration of the information and statements submitted and presented by representatives of the Hopi Tribe and Chaco Culture National Historical Park at its meetings on May 3-5, 1999 and November 18-20, 1999, the Native American Graves Protection and Repatriation Review Committee (Review Committee) considers that:

1. On May 12, 1999, Chaco Culture National Historical Park published a Notice of Inventory Completion regarding 265 Native American human remains and 743 funerary objects. The park determined the human remains and funerary objects to be culturally affiliated with the Hopi Tribe of Arizona; Navajo Nation of Arizona, New Mexico, and Utah; Pueblo of Acoma, New Mexico; Pueblo of Cochiti, New Mexico; Pueblo of Isleta, New Mexico; Pueblo of Laguna, New Mexico; Pueblo of Nambe, New Mexico; Pueblo of Picuris, New Mexico; Pueblo of Pojoaque, New Mexico; Pueblo of San Felipe, New Mexico; Pueblo of San Ildefonso, New Mexico; Pueblo of San Juan, New Mexico; Pueblo of Sandia, New Mexico; Pueblo of Santa Ana, New Mexico; Pueblo of Santa Clara, New Mexico; Pueblo of Santo Domingo, New Mexico; Pueblo of Taos, New Mexico; Pueblo of Tesuque, New Mexico; Pueblo of Zia, New Mexico; and the Zuni Tribe of Zuni Reservation, New Mexico.

2. The Hopi Tribe disputed the park's determinations of cultural affiliation, arguing that:

a. Proper tribe-by-tribe consultation was not performed by the park;

b. The park did not apply a rigorous standard in weighing the evidence in making determinations of cultural affiliation; and

c. Determinations of cultural affiliation must be made on an object-by-object basis, rather than globally for the park as a whole.

3. Chaco Culture National Historical Park answered these objections by pointing to a nine-year record of tribal consultations. The park also argued that there is cultural continuity within Chaco Canyon dating to the Archaic Period (pre 1 AD) and that as such, there was no value in assessing cultural affiliation for each site individually. The park defended its determinations of cultural affiliation on the grounds that a broad range of both scientific and traditional evidence had been used. It was also noted that given the complex history of Chaco Canyon, and the strong
