The Applicable Statute

Unless otherwise indicated, all citations to the Tariff Act of 1930, as amended ("the Act"), are references to the provisions effective January 1, 1995, the effective date of the amendments made to the Act by the Uruguay Round Agreements Act ("URAA"). In addition, unless otherwise indicated, all citations to the Department of Commerce's ("the Department's") regulations are to the regulations at 19 CFR Part 351 (1999).

Amendment to the Final Determination

On December 13, 1999, the Department made its final determinations that certain cut-to-length carbon-quality steel plate products from France, India, Indonesia, Italy, Japan and the Republic of Korea are being, or are likely to be, sold in the United States

at less than fair value. *See Notice of Final Determination of Sales at Less Than Fair Value: Certain Cut-To-Length Carbon-Quality Steel Plate Products from France*, 64 FR 73143, (*India*) 64 FR 73126, (*Indonesia*) 64 FR 73164, (*Italy*) 64 FR 73234, (*Japan*) 64 FR 73215, and the (*Republic of Korea*) 64 FR 73196 (December 29, 1999) ("Final Determinations"). In December 1999, the Department disclosed its calculations for the final determinations to all interested parties. In December 1999, and January 2000, the Department received timely allegations of ministerial errors in its margin calculations for certain respondents. Specifically, the Department received ministerial error allegations in the final determinations for France, Indonesia, Italy, and the Republic of Korea. After analyzing the ministerial error allegations in accordance with 19 CFR 351.224, we have determined the following:

France

In calculating the final margin for the respondent Usinor S.A., the Department improperly calculated the constructed export price ("CEP") offset where U.S. sales were compared to constructed value. Specifically, the Department failed to include home market inventory carrying costs in the indirect selling expenses used to calculate the CEP offset. For a detailed discussion of the ministerial error allegations for France and the Department's analysis thereof, *see* the Memorandum, *Ministerial Error Allegations Regarding the Final Determination*, to Holly A. Kuga, Acting Deputy Assistant Secretary, AD/CVD Enforcement Group II, from the France Team, dated January 28, 2000. In accordance with 19 CFR 351.224(e), we are amending the final determination of the antidumping duty investigation of certain cut-to-length carbon-quality steel plate products from France. Correcting the ministerial error changes the final weighted-average dumping margin for Usinor S.A. and the "All Others" rate from 10.43 percent to 10.41 percent.

Indonesia

In calculating the final margin for the respondent PT Gunawan Dianjaya Steel ("Gunawan")/ PT Jaya Pari Steel Corporation ("Jaya Pari"), the Department (1) incorrectly calculated the indexed, weighted-average costs; (2) failed to incorporate certain adjustments to Gunawan's and Jaya Pari's U.S. sales in the margin calculation; (3) failed to include all of Jaya Pari's U.S. sales in the margin calculation; (4) incorrectly calculated December 1998 current costs by using the incorrect wholesale price
