

publication of this notice of final results of review for all shipments of the subject merchandise entered, or withdrawn from warehouse, for consumption on or after the publication date, as provided for by section 751(a)(1) of the Act: (1) the cash deposit rate for the reviewed company will be 12.07 percent; (2) for previously investigated or reviewed companies not listed above, the cash deposit rate will continue to be the company-specific rate published for the most recent period; (3) if the exporter is not a firm covered in this review, a prior review, or in the original less-than-fair-value (LTFV) investigation, but the manufacturer is, the cash deposit rate will be the rate established for the most recent period for the manufacturer of the merchandise; and (4) if neither the exporter nor the manufacturer is a firm covered in this review, the cash deposit rate will continue to be 2.90 percent, which is the "all others" rate from the LTFV investigation (47 FR 7459, February 12, 1982).

These deposit requirements will remain in effect until publication of the final results of the next administrative review.

This notice also serves as a final reminder to importers of their responsibility under 19 CFR 351.402(f) to file a certificate regarding the reimbursement of antidumping duties prior to liquidation of the relevant entries during this review period. Failure to comply with this requirement could result in the Secretary's presumption that reimbursement of antidumping duties occurred and the subsequent assessment of double antidumping duties.

This notice also serves as a reminder to parties subject to administrative protective orders (APOs) of their responsibility concerning the disposition of proprietary information disclosed under 19 CFR 351.306. Timely written notification of the return/destruction of APO materials or conversion to judicial protective order is hereby requested. Failure to comply with the regulations and the terms of an APO is a sanctionable violation.

We are issuing and publishing this administrative review and notice in accordance with sections 751(a)(1) and 771(i)(1) of the Act.

Dated: February 7, 2000.

Robert S. LaRussa,

Assistant Secretary for Import Administration.

International Trade Administration

University of California; Notice of Decision on Application for Duty-Free Entry of Scientific Instrument

This decision is made pursuant to Section 6(c) of the Educational, Scientific, and Cultural Materials Importation Act of 1966 (Pub. L. 89-651, 80 Stat. 897; 15 CFR part 301). Related records can be viewed between 8:30 a.m. and 5 p.m. in Room 4211, US Department of Commerce, 14th and Constitution Avenue, NW, Washington, DC

Docket Number: 99-032. *Applicant:* University of California, Los Alamos, NM 87545. *Instrument:* Solid State Quantum Computer, Model Multiprobe S. *Manufacturer:* Omicron Vakuum Physik GmbH, Germany. *Intended Use:* See notice at 64 FR 72649, December 28, 1999.

Comments: None received. *Decision:* Approved. No instrument of equivalent scientific value to the foreign instrument, for such purposes as it is intended to be used, is being manufactured in the United States.

Reasons: The foreign instrument provides an ultra-high vacuum chamber with compatible scanning probe, scanning tunneling and atomic force microscopes for depositing an array of phosphorus atoms on a silicon surface having the following capabilities: (1) An operating temperature range from 25 to 1500 degrees K, (2) adequate internal and external vibrational damping and isolation and (3) a 10 μm x 10 μm x 1 μm scan range to be used in a solid state quantum computer. A university center for advanced microstructural devices and the National Institute of Standards and Technology advise that (1): These capabilities are pertinent to the applicant's intended purpose and (2) they know of no domestic instrument or apparatus of equivalent scientific value to the foreign instrument for the applicant's intended use.

We know of no other instrument or apparatus of equivalent scientific value to the foreign instrument which is being manufactured in the United States.

Frank W. Creel,

Director, Statutory Import Programs Staff.

BILLING CODE 3510-DS-P

DEPARTMENT OF COMMERCE

National Telecommunications and Information Administration

[Docket No. 000208032-0032-01]

Public Meeting, Request for Comment on Rural and Small Market Access to Local Television Broadcast Signals

AGENCY: National Telecommunications and Information Administration, Department of Commerce.

ACTION: Notice of public meeting; Request for public comment.

SUMMARY: The Assistant Secretary for Communications and Information and Administrator of the National Telecommunications and Information Administration (NTIA), Gregory L. Rohde, will host a roundtable discussion open to the public that will explore rural and small market access to local television broadcast signals (Rural TV Roundtable). NTIA also requests public comment on the ways to ensure that television viewers in rural regions, small markets, and other unserved areas of the United States can receive greater access to local programming through new technologies. New technological innovations are providing unprecedented opportunities to expand the reach of broadcast programming to America's rural regions, small markets, and other unserved areas. While some viewers in rural and small markets and other unserved areas have been able to receive broadcast network programming via cable and satellite, these programming signals often originate hundreds or even thousands of miles away, and do not provide these communities with local programming. This notice, through a series of questions, requests public comment on issues relating to the means by which access to local television can be made available to television viewers in small markets, rural communities and other unserved areas.

DATES: The Rural TV Roundtable will be held from 9:30-11:30 a.m. on March 2, 2000. Written comments must be filed on or before April 14, 2000. Written reply comments must be filed on or before May 15, 2000.

ADDRESSES: The Rural TV Roundtable will be held from 9:30-11:30 a.m. on March 2, 2000, at the U.S. Department of Commerce, Room 4830, 1401 Constitution Avenue NW, Washington, DC 20230. The meeting will be open to the public. For current information on the roundtable, please see NTIA's website at <http://www.ntia.doc.gov/ntiahome/ruraltvroundtable/>.

The Department invites the public to submit written comments in paper or electronic form. Comments may be mailed to Robert Krinsky, Office of Policy Analysis and Development, National Telecommunications and Information Administration (NTIA), U.S. Department of Commerce, Room 4725, 1401 Constitution Avenue, N.W., Washington, DC 20230. In the alternative, comments may be submitted in electronic form to the following electronic mail address: <ruraltv@ntia.doc.gov>.

Submission of Documents

Written Comments

Paper submissions should include three paper copies and a version on diskette in PDF, ASCII, Word Perfect (please specify version) or Microsoft Word (please specify version) format. Diskettes should be labeled with the name of the party, and the name and version of the word processing program used to create the document. Comments and reply comments submitted via email to ruraltv@ntia.doc.gov should also be submitted in the formats specified above.

All comments and reply comments should be captioned "Rural and Small Market Access to Local Television Broadcast Signals—Comment [or Reply Comment], Docket No. 000208032–0032–01." Comments and reply comments should be numbered and organized in response to the questions set forth in this Notice.

Comments and reply comments received will be posted on the NTIA web site at <http://www.ntia.doc.gov>.

FOR FURTHER INFORMATION CONTACT: Robert Krinsky, Office of Policy Analysis and Development, National Telecommunications and Information Administration; telephone (202) 482–1880; or electronic mail <rkrinsky@ntia.doc.gov>.

Media enquiries should be directed to the Office of Public Affairs, National Telecommunications and Information Administration, at (202) 482–7002.

SUPPLEMENTARY INFORMATION:

Background

Changes in the copyright law brought about by the enactment of the Satellite Home Viewer Improvement Act of 1999 (SHVIA) have provided an opportunity for satellite services to deliver local broadcast signals into local markets. Early reports, however, indicate that so-called "local-into-local" service will be offered only in relatively large markets and not available to viewers in rural and small communities. The purpose of this NTIA request for public comment is to explore whether there are other ways to

ensure that viewers in these underserved communities can receive the benefit of access to local programming through new technologies.

Last year Congress examined one proposal, a new loan guarantee program, as a means of promoting the delivery of local broadcast signals in rural and small markets. As a complement to Congressional efforts, NTIA has undertaken this request for public comment on the viability of any means of providing local broadcast television service to rural regions, small markets, and other unserved areas, including any legal, economic, or technological impediments. NTIA will also conduct a public meeting that will feature a roundtable discussion of these issues.

Questions for Public Comment

Interested parties are requested to submit written comments on any issue of fact, law, or policy that may inform the U.S. Department of Commerce on rural and small market access to local television broadcast signals. Specifically, comment is requested on the questions set forth below. These questions are designed to assist the public, however, and should not be construed as a limitation on the issues on which public comment may be submitted. Comments should cite the number of the question(s) addressed. Please provide copies of any studies, research, or other empirical data referenced in the comments.

1. Is it technologically feasible today to deliver local-into-local broadcast service to rural regions, small markets, and other unserved areas? This might include comments on satellite, enhancements to terrestrial digital television, wireless cable, video streaming, wireless packet data, and other technological means.

2. What are the trade-offs between the technology options?

3. Under what circumstances is the use of one technology more appropriate than another?

4. Should multiple technologies be used to accomplish the delivery of local television service to rural regions, small markets, and other unserved areas?

5. What are the economic impediments, if any, to the use of any of the technologies that might be used to facilitate local television service to rural regions, small markets, and other unserved areas?

6. What are the legal impediments, if any, to the use of any of the technologies that might be used to facilitate local television service to rural regions, small markets, and other unserved areas?

7. What legal measures, if any, should be taken to foster the delivery of local

television service to rural regions, small markets, and other unserved areas?

8. What economic and technological policy measures, if any, should be taken to foster the delivery of local television service to rural regions, small markets, and other unserved areas?

Public Participation: The Rural TV Roundtable is open to the public on a first-come, first-served basis and physically accessible to people with disabilities. To facilitate entry into the Department of Commerce building, please have a photo identification available and/or a U.S. Government building pass if applicable. Any member of the public wishing to attend and requiring special services, such as a sign language interpretation or other ancillary aids, should contact Robert Krinsky, Office of Policy Analysis and Development, U.S. Department of Commerce, at least five (5) working days prior to the Rural TV Roundtable, at either telephone number (202) 482–1880 or electronic mail at <rkrinsky@ntia.doc.gov>.

Gregory L. Rohde,

Assistant Secretary for Communications and Information.

BILLING CODE 3510–60–P

COMMODITY FUTURES TRADING COMMISSION

Notice of the First Renewal of the Global Markets Advisory Committee

SUMMARY: The Commodity Futures Trading Commission has determined to renew the charter of its "Global Markets Advisory Committee." As required by Sections 9(a)(2) and 14(a)(2)(A) of the Federal Advisory Committee Act, 5 U.S.C. app. 2, 9(a)(2) and 14(a)(2)(A), and 41 C.F.R. 101–6.1007 and 101–6.1029, the Commission has consulted with the Committee Management Secretariat of the General Services Administration. The Commission certifies that the renewal of this advisory committee is necessary and is in the public interest in connection with the performance of duties imposed on the Commission by the Commodity Exchange Act, 7 U.S.C. 1, *et seq.*, as amended. This notice is published pursuant to Section 9(a)(2) of the Federal Advisory Committee Act, 5 U.S.C. app. 2, 9(a)(2), and 41 C.F.R. 101–6.1015.

FOR FURTHER INFORMATION CONTACT: George G. Wilder, Legal Counsel to Commissioner Barbara P. Holum, at 202–418–5142, or Marcia K. Blase,
