SUPPLEMENTARY INFORMATION: The purpose of the Commission is to provide advice and recommendations to the President and Congress on the creation of an integrated, coordinated Federal policy, designed to prepare for and respond to serious drought emergencies. Tasks for the Commission include developing recommendations that will (a) better integrate Federal laws and programs with ongoing State, local, and tribal programs, (b) improve public awareness of the need for drought mitigation, prevention, and response and (c) determine whether all Federal drought preparation and response programs should be consolidated under one existing Federal agency, and, if so, identify the agency.

The Commission's draft vision statement is of a well-informed, involved U. S. citizenry and its governments prepared for and capable of lessening the impacts of drought—consistently and timely. Drought policy should improve national security and foster economic prosperity, environmental quality, and social well being. It should also benefit future generations as well as our own.

In addition to your views and thoughts regarding a national drought policy, as you review the draft vision statement, the Commission would be interested in your thoughts regarding the following questions:

1. What is the best means for informing the public of Federal assistance for drought planning and mitigation?
2. What type of information do you need for responding to drought?
3. What needs do you or your organization presently have with respect to addressing drought conditions?
4. What do you see as the role of State, local, and Federal Governments and regional and tribal entities with respect to drought preparedness? Drought response? Should Federal emergency assistance be contingent on advance preparedness?
5. Are there any ways you feel that the Federal Government could better coordinate with State, regional, tribal, and local governments in mitigating or responding to droughts?

6. What lessons have you or your organization learned from past drought experiences that would be beneficial in the creation of a national drought policy?

Signed at Washington, D.C., on February 10, 2000.

George Arredondo,

Administrator, Farm Service Agency.
