

*Environmental Impacts of the Proposed Action*

The NRC has completed its evaluation of the proposed action and concludes that the exemption will not endanger life or property and is otherwise in the public interest.

The proposed action will not significantly increase the probability or consequences of accidents, no changes are being made in the types of any effluents that may be released off site, and there is no significant increase in occupational or public radiation exposure. Therefore, there are no significant radiological environmental impacts associated with the proposed action.

With regard to potential nonradiological impacts, the proposed action does not involve any historic sites. It does not affect nonradiological plant effluents and has no other environmental impact. Therefore, there are no significant nonradiological environmental impacts associated with the proposed action.

Accordingly, the NRC concludes that there are no significant environmental impacts associated with the proposed action.

*Alternatives to the Proposed Action*

As an alternative to the proposed action, the staff considered denial of the proposed action (*i.e.*, the "no action" alternative). Denial of the application would result in no change in current environmental impacts. The environmental impacts of the proposed action and the alternative action are similar.

*Alternative Use of Resources*

This action does not involve the use of any resources not previously considered in the Final Environmental Statement for the Monticello Nuclear Generating Plant.

*Agencies and Persons Consulted*

In accordance with its stated policy, on February 9, 2000, the staff consulted with the Minnesota State official, Ms. J. Peterson of the Department of Commerce, regarding the environmental impact of the proposed action. The State official had no comments.

**Finding of No Significant Impact**

On the basis of the environmental assessment, the NRC concludes that the proposed action will not have a significant effect on the quality of the human environment. Accordingly, the NRC has determined not to prepare an environmental impact statement for the proposed action.

For further details with respect to the proposed action, see the licensee's letter dated January 19, 2000, which is available for public inspection at the Commission's Public Document Room, The Gelman Building, 2120 L Street, NW., Washington, DC. Publicly available records will be accessible electronically from the ADAMS Public Library component on the NRC Web site, <http://www.nrc.gov> (the Electronic Reading Room).

## PRESIDIO TRUST

### Mountain Lake Enhancement, The Presidio of San Francisco, California; Notice of Intent To Prepare an Environmental Assessment

**AGENCY:** The Presidio Trust.

**ACTION:** Notice of intent to prepare an environmental assessment for the proposed enhancement of Mountain Lake, The Presidio of San Francisco.

**SUMMARY:** The Presidio Trust (Trust) intends to prepare an environmental assessment (EA) for the proposed enhancement of Mountain Lake, three acres in size, located on The Presidio of San Francisco (Presidio). The EA will address the environmental consequences of the proposed enhancement and alternatives.

**DATES:** The Trust is inviting the public to participate in a public workshop to comment on the range of alternatives and the specific impacts to be evaluated in the EA. The public workshop will be held on March 8, 2000, from 6:00 p.m. to 9:00 p.m., at the Log Cabin, Storey Avenue, Fort Scott, the Presidio, California. The Trust is also inviting written comments. All comments must be received by April 7, 2000.

**ADDRESSES:** Written comments concerning this notice must be sent to John Pelka, NEPA Compliance Coordinator, The Presidio Trust, 34 Graham Street, P.O. Box 29052, San Francisco, CA 94129-0052. Fax: 415-561-5315. E-mail: [jpelka@presidiotrust.gov](mailto:jpelka@presidiotrust.gov).

**FOR FURTHER INFORMATION CONTACT:** John Pelka, NEPA Compliance Coordinator, The Presidio Trust, 34 Graham Street, P.O. Box 29052, San Francisco, CA 94129-0052. Telephone: 415-561-5300.

**SUPPLEMENTARY INFORMATION:** The Trust will prepare an EA for the enhancement of Mountain Lake, located to the east of the 15th Avenue entrance in the southern section of the Presidio. The lake encompasses approximately three acres, and the overall project area is approximately ten acres. A portion of the project area is within the City and County of San Francisco.

Improving water quality is a primary objective of the Mountain Lake enhancement planning process. Water quality has diminished over time due to

human activities that resulted in the silting and filling in of nearly 40% of the lake and associated wetlands. The proposed Mountain Lake enhancement project may involve physical modification to the lake and environs to improve the lake's water quality and associated terrestrial and aquatic habitat. Alternatives currently being considered for the site include dredging of lake bottom sediments, mechanical aeration, removal of eucalyptus trees and ivy along the lake's edge, and restoration of native plant species in the vicinity of the lake. These alternatives were identified in part based on feedback received during public meetings and initial technical reports for the project site.

Notice of the workshop is being provided through this announcement, announcements in the Trust's monthly newsletter and other local media, direct mailing to nearby property owners, posting on the Trust's website ([www.presidiotrust.gov](http://www.presidiotrust.gov)), and other means.

Dated: February 10, 2000.
