NUCLEAR REGULATORY COMMISSION

[Docket No. 50-336]

Northeast Nuclear Energy Company, et al.; Millstone Nuclear Power Station, Unit No. 2; Notice of Withdrawal of Application for Amendment to Facility Operating License

The U.S. Nuclear Regulatory Commission (the Commission) has granted the request of Northeast Nuclear Energy Company, *et al.* (NNECO) to withdraw its November 13, 1998, application, as supplemented by letter

dated September 16, 1999, for proposed amendment to Facility Operating License No. DPR-65 for the Millstone Nuclear Power Station, Unit 2, located in New London County, Connecticut.

The proposed amendment would have authorized the licensee to revise the Final Safety Analysis Report by changing the High Pressure Safety Injection pump runout flowrate, Auxiliary Feedwater pump flowrate, the iodine partition factor for the air ejector, inclusion of the potential of flashing of the primary-to-secondary leakage, and a change in the atmospheric release point assumed following the actuation of the Enclosure Building Filtration Actuation Signal.

The Commission had previously issued a Notice of Consideration of Issuance of Amendment published in the **Federal Register** on January 27, 1999 (64 FR 4158). However, by letter dated January 25, 2000, NNECO withdrew the proposed change request.

For further details with respect to this action, see the application for amendment dated November 13, 1998, as supplemented by letter dated September 16, 1999, and NNECO's letter dated January 25, 2000, which withdrew the application for license amendment. The above documents are available for public inspection at the Commission's Public Document Room, the Gelman Building, 2120 L Street, NW., Washington, DC, and accessible electronically through the ADAMS Public Electronic Reading Room link at the NRC Web site (<http://www.nrc.gov>).

Dated at Rockville, Maryland, this 14th day of February 2000.

For the Nuclear Regulatory Commission.

NUCLEAR REGULATORY COMMISSION

[Docket Nos. 50-277 and 50-278]

PECO Energy Company Public Service Electric and Gas Company, Delmarva Power and Light Company, Atlantic City Electric Company, Peach Bottom Atomic Power Station, Units 2 and 3; Notice of Consideration of Approval of Transfer of Facility Operating Licenses and Conforming Amendments, and Opportunity for a Hearing

The U.S. Nuclear Regulatory Commission (the Commission) is considering the issuance of an order

under 10 CFR 50.80 approving the transfer of Facility Operating License No. DPR-44 for the Peach Bottom Atomic Power Station, Unit 2, and Facility Operating License No. DPR-56 for the Peach Bottom Atomic Power Station, Unit 3, to the extent currently held by the Delmarva Power & Light Company (DP&L) and the Atlantic City Electric Company (ACE) in connection with each of their 7.51 percent undivided ownership interests in each of the Peach Bottom units. The transfer would be to the PECO Energy Company (PECO) and PSEG Nuclear LLC (PSEG Nuclear). The Commission is also considering amending the licenses for administrative purposes to reflect the proposed transfer.

According to an application for approval filed by PECO, Public Service Electric and Gas Company (PSE&G), PSEG Nuclear, DP&L, and ACE, both PECO and PSEG Nuclear would acquire DP&L's and ACE's ownership interests in the facility following approval of the proposed transfer of the licenses. Depending upon the timing of a planned restructuring of PSE&G, as an interim step the interests of DP&L and ACE to be ultimately acquired by PSEG Nuclear may be transferred first to PSE&G or to PSEG Power LLC, the parent of PSEG Nuclear, and then to PSEG Nuclear. PECO, which presently owns a 42.49 percent interest in both units, and is the licensed operator of the facility, would continue to be responsible for the operation, maintenance, and eventual decommissioning of the Peach Bottom station. No physical changes to the Peach Bottom facility or operational changes are being proposed in the application.

The proposed amendment would remove references in the licenses to ACE and DP&L, and add references to PSEG Nuclear, as appropriate, to reflect the proposed transfer. Since PECO is already shown as a licensee in the licenses, it will not need to be added to the licenses.

Pursuant to 10 CFR 50.80, no license, or any right thereunder, shall be transferred, directly or indirectly, through transfer of control of the license, unless the Commission shall give its consent in writing. The Commission will approve an application for the transfer of a license, if the Commission determines that the proposed transferee is qualified to hold the license, and that the transfer is otherwise consistent with applicable provisions of law, regulations, and orders issued by the Commission pursuant thereto.

Before issuance of the proposed conforming license amendments, the
