

Sec. 12, S $\frac{1}{2}$ NE $\frac{1}{4}$, and NW $\frac{1}{4}$.

Bowie Resources, Ltd. and Oxbow Mining, Inc. applied to the BLM for the Iron Point and Elk Creek coal lease tracts respectfully to extend the production life of their existing underground mines. Similarly, Bowie applied to the BLM for a coal exploration license to further delineate coal resource in lands adjacent to their ongoing mining. The requested Iron Point Tract and the exploration license area are adjacent to the presently approved permit area for the Bowie No. 2 Mine which is operated by Bowie. Likewise, the requested Elk Creek Tract is adjacent to the presently approved permit area for the Sanborn Creek Mine which is operated by Oxbow. These applications encompass federal coal on BLM and National Forest system lands. The federal coal resource to be offered is limited to coal recoverable by underground mining methods.

The USDA Forest Service is a joint lead agency in the preparation of the EIS because the surface of some of the land in the applications is administered by the Forest Service. The Office of Surface Mining Reclamation and Enforcement is a cooperating agency in the preparation of the EIS because it is the Federal agency that would review the mining plans for the two proposed tracts if they are leased, and recommend approval or disapproval of the mining plans to the Secretary of the Interior.

The EIS analyzes four alternatives. Besides the no-action alternative and the plans as submitted in the applications, two other alternatives were examined in the EIS. The other alternatives analyzed the possibility of multiseam mining and the restriction of subsidence due to underground mining activity in key areas to protect surface resources.

The DEIS was filed on September 3, 1999 and the DEIS comment period extended through November 3, 1999. An informal open house was held on October 7, 1999 and a public hearing was held on October 14, 1999 at Hotchkiss High School in Hotchkiss, Colorado.
