Form Number: FCC 395-B.

Type of Review: Revision of a currently approved collection.

Respondents: Business or other for-profit entities; Not-for-profit institutions.

Number of Respondents: 16,425.

Estimate Time Per Response: 0.166 to 1.0 hour.

Frequency of Response: Annual reporting requirement.

Total Annual Burden: 12,100 hours.

Total Annual Costs: None.

Needs and Uses: The Annual Employment Report, FCC Form 395-B, is required to be filed by all licensees and permittees of AM, FM, TV, international, and low power TV broadcast stations. It is a data collection device used to assess industry employment trends. The report identifies each staff member by gender, race, color, and/or national origin in each of the nine major job categories. On September 30, 1998, the FCC suspended the requirement that television and radio broadcast licensees and permittees submit the FCC Form 395-B. This suspension was to remain in effect until the Commission revised the EEO rules to be consistent with the D.C. Circuit Court's decision in *Lutheran Church-Missouri Synod v. FCC*. On January 20, 2000, the Commission adopted a Report and Order, MM Docket Nos. 98-204 and 96-16, Review of the Commission's Broadcast and Cable Equal Employment Opportunity Rules and Policies and Termination of the EEO Streamlining Proceeding. This Report and Order reinstates the requirement that broadcasters file the FCC Form 395-B. In addition, the FCC eliminated all requirements that broadcast licensees compare their employment profile and employee turnover with the local labor force. Furthermore, the Commission will no longer compare individual employment profiles with the local labor force as a screening device. These data will only be used to monitor industry employment trends and report to Congress.

SUPPLEMENTARY INFORMATION:

1. Background

On December 6, 1999, the former Agency for Health Care Policy and Research, was reauthorized and renamed the Agency for Healthcare Research and Quality (AHRQ) by P.L. 106-129, the Healthcare Research and Quality Act of 1999. The legislation directed AHRQ to improve the quality of health care, promote patient safety and reduce medical errors through research, including research on the use of health care services and outcomes research.

Shortly before the Agency became AHRQ, section 229 of the Medicare, Medicaid and SCHIP Balanced Budget Refinement Act of 1999 (incorporated by reference in, and enacted by section 1000(a) of Public Law 106-113) directed that the Agency (then AHCPR) provide for a study of differences in quality between ultrasound services furnished by individuals who are credentialed and ultrasound services furnished by those who are not so credentialed. This study is to examine and evaluate differences in error rates, resulting complications, and patient outcomes and determine any quality differences that can be correlated with the differences in credentialing. In particular, the Congress indicated that findings should be made with respect to the provision of ultrasound under the Medicare and Medicaid programs under titles XVIII and XIX of the Social Security Act.
