DATES: Submit written comments on the collection of information by March 30, 2000.

ADDRESSES: Submit written comments on the collection of information to the Office of Information and Regulatory

Affairs, OMB, New Executive Office Bldg., 725 17th St. NW., rm. 10235, Washington, DC 20503, Attn: Wendy Taylor, Desk Officer for FDA.

SUPPLEMENTARY INFORMATION: In compliance with 44 U.S.C. 3507, FDA has submitted the following proposed collection of information to OMB for review and clearance.

Filing Objections and Requests for a Hearing on a Regulation or Order

Under section 701(e)(2) of the Federal Food, Drug, and Cosmetic Act (the act) (21 U.S.C. 371(e)(2)), within 30 days after publication of a regulation or order, any person adversely affected by such regulations or order may file objections and request a public hearing. The implementing regulations for these statutory requirements are found at 21 CFR 12.22, which sets forth the format and instructions for filing objections and requests for a hearing. Each

objection for which a hearing has been requested must be separately numbered and specify with particularity the provision of the regulation or the proposed order objected to. In addition, each objection must include a detailed description and analysis of the factual information to be presented in support of the objection as well as any report or other document relied on, with some exceptions. Failure to include this information constitutes a waiver of the right to a hearing on that objection. FDA uses the description and analysis only for the purpose of determining whether a hearing request is justified. The description and analysis do not limit the evidence that may be presented if a hearing is granted. Respondents to this information collection are those parties that may be adversely affected by an order or regulation.

In the **Federal Register** of October 25, 1999 (64 FR 57467), the agency requested comments on the proposed collections of information. No significant comments were received.

FDA estimates the burden of this collection of information as follows:

TABLE 1.—ESTIMATED ANNUAL REPORTING BURDEN¹

21 CFR Section	No. of Respondents	Annual Frequency per Response	Total Annual Responses	Hours per Response	Total Hours
12.22	60	1	60	20	1,200

¹ There are no capital or operating and maintenance costs associated with this collection of information.

The burden estimate for this collection of information is based on agency data received on this administrative procedure for the past 3 years. Agency personnel responsible for processing the filing of objections and requests for a public hearing on a specific regulation or order, estimate approximately 60 requests are received by the agency annually, with each requiring approximately 20 hours of preparation time.

Dated: February 23, 2000.

William K. Hubbard,

Senior Associate Commissioner for Policy, Planning, and Legislation.

SUPPLEMENTARY INFORMATION:

Background

The Balanced Budget Act of 1997 (BBA) (Pub. L. 105-33) established the Medicare+Choice program. Under the BBA, HCFA must implement a risk adjustment methodology that accounts for variations in per capita costs based on health status and other demographic factors for payment to Medicare+Choice organizations (M+COs). Risk adjustment implementation must start no later than January 1, 2000.

The BBA also gives HCFA the authority to collect inpatient hospital data for discharges on or after July 1, 1997, and additional data for services occurring on or after July 1, 1998. The schedule for physician and hospital outpatient encounter data submission is as follows:

- October 1, 2000: Submission of physician data begins.
- January 1, 2001: Submission of hospital outpatient data begins with dates of services retroactive to October 1, 2000.

This notice announces a public meeting to provide an opportunity for M+COs, providers, practitioners, and other interested parties to obtain basic information on the data requirements for the collection of physician and hospital outpatient encounter data. HCFA intends to provide additional information on our data collection efforts, systems processes, training approach, and customer services. HCFA will also follow-up this meeting with intensive training in the areas of physician and hospital outpatient encounter data that will occur in June and September, respectively.

HCFA is announcing this public meeting to provide an overview of physician and hospital outpatient data and to allow for individuals and organizations familiar with issues related to physician and hospital outpatient data collection to raise questions that can be answered in

subsequent training. The agenda will include short presentations by HCFA staff and Aspen Systems Corporation, the encounter data training contractor, on related topics and will conclude with a question-and-answer session.
