

public for motorized use, including all terrain vehicles (ATVs). This is consistent with the desire to provide appropriate "loop" ATV routes in the Outback Zone. (f) Horse Canyon (approximately 1 mile)—a mapping error was corrected to show the route open to motorized use up to the choke point in the canyon. The remainder of the route will continue to be available for administrative use only.

The Grand Bench route, the Sooner Rocks route, the Allen Dump route, and the Horse Canyon route were identified as open to administrative use only in the Proposed Plan. The Chimney Rock route and the Timber Mountain loop were not identified for motorized use in the Proposed Plan, but will now be open as described above. The discussion of R.S. 2477 assertions in footnote 1 of Chapter 2 of the Approved Plan has also been clarified to emphasize that nothing in the Plan extinguishes any valid existing rights-of-way in GSENM. Nothing in this Plan alters in any way any legal rights the Counties of Garfield and Kane or the State of Utah has to assert and protect R.S. 2477 rights, and to challenge in Federal court, or any other appropriate venue, any BLM road closures that they believe are inconsistent with their rights. (7) A clarification has been made that authorizations for overnight camping and exceptions to group size limits could be provided for in valid grazing permits if the activity does not involve outfitter and guide operations or special events. These provisions may be necessary for the proper operation of a valid grazing permit and are more appropriately authorized within the terms of that permit rather than in recreational visitor permits. Campfire restrictions and other zone provisions will apply. (8) As in the Proposed Plan, new water developments are restricted in the Approved Plan to the following purposes: for better distribution of livestock when deemed to have an overall beneficial effect on Monument resources or to restore or manage native species or populations. The Proposed Plan also stated that such developments could be done "only when there is no other means to achieve the above objectives." For clarification purposes, this wording has been modified in the Approved Plan to state that developments could be done when "a NEPA analysis determines this tool to be the best means of achieving the above objectives." (9) Filming provisions have been changed from allowing filming, by permit, that meets the "minimum impact" standards to allowing filming, by permit, if it complies with zone

requirements and other Plan provisions. The zone requirements have restrictions that are similar to the minimum impact standards, and thus are the appropriate means of managing filming within the Monument. This treats filming similarly to other activities with similar resource impacts.

Wild and Scenic Rivers

Through this planning effort approximately 252 miles of river segments have been determined suitable and will be recommended for Congressional designation into the NWSRS. The suitable river segments include: Escalante River 1, 2, 3; Harris Wash; Lower Boulder Creek; Slickrock Canyon; Lower Deer Creek 1, 2; The Gulch 1, 2, 3; Steep Creek; Lower Sand Creek and tributary Willow Patch Creek; Mamie Creek and west tributary; Death Hollow Creek; Calf Creek 1, 2, 3; Twenty-five Mile Wash; Upper Paria River 1, 2; Lower Paria River 1, 2; Deer Creek Canyon; Snake Creek; Hogeys Creek; Kitchen Canyon; Starlight Canyon; Lower Sheep Creek; Hackberry Creek; Lower Cottonwood Creek; and Buckskin Gulch.

Transportation and Access

The Approved Plan designates the route system for the Monument. Cross-country motorized travel will be prohibited in accordance with 43 CFR 8340 Off-Road Vehicle (OHV) regulations. Vehicles may pull off routes no more than 50 feet for parking and camping where allowed. No off-highway vehicle (OHV/ATV) play areas will be designated in the Monument. Use of bicycles is limited to designated routes and cross-country travel is not allowed. Street legal motorized vehicles, including four-wheel-drive and mechanized vehicles (including bicycles), will be allowed on approximately 908 miles of routes designated open. Non-street legal ATVs and dirt bikes will be allowed on approximately 553 miles of the 908 miles of routes designated open to street legal vehicles. Non-street legal all-terrain vehicles (ATVs) and dirt bikes will be restricted to those routes designated as open for their use.

The Director's office has issued final decisions, dismissing or resolving, each of the 111 protests received, thus allowing for immediate implementation of the Approved Management Plan.
