SUPPLEMENTARY INFORMATION:

I. Background

The Department of Labor (DOL) plans to conduct a variety of voluntary Customer Satisfaction Surveys of regulated/non-regulated entities which will be specifically designed to gather information from a customer's perspective as prescribed by E.O. 12862, Setting Customer Service Standards, September 11, 1993.

These Customer Satisfaction Surveys will provide information on customer attitudes about the delivery and quality of agency products/services and will be used as part of an ongoing process to improve DOL programs. This generic clearance will allow agencies to gather information from both Federal and non-Federal users.

II. Current Actions

Over the past three years the DOL has conducted more than two dozen Customer Satisfaction Surveys which have helped assess the Departments products and services and has led to improvements in areas deemed necessary. In addition to conducting

Customer Satisfaction Surveys, the Department would like to include the use of evaluation forms for those DOL agencies conducting user conferences. These evaluations will be helpful in determining the success of the current conference, in developing future conferences, and in meeting the needs of the Department's product/service users.

Type of Review: Revision of a currently approved collection.

Agency: Office of Assistant Secretary for Administration and Management, Departmental Management.

SUPPLEMENTARY INFORMATION:

I. Background

The Department of Labor, as part of its continuing effort to reduce paperwork and respondent burden, conducts a preclearance consultation program to provide the general public and Federal agencies with an opportunity to comment on proposed and continuing information-collection requirements in accordance with the Paperwork Reduction Act of 1995 (PRA-95) (44 U.S.C. 3506(c)(2)(A)). This program ensures that information is in the desired format, reporting burden (time and costs) is minimal, collection instruments clearly understood, and OSHA's estimate of the information burden is correct. The Occupational Safety and Health Act of the 1970 (the Act) authorizes information collection by employers as necessary or appropriate for enforcement of the Act or for developing information regarding the causes and prevention of occupational injuries, illnesses, and accidents (29 U.S.C. 657).

The information-collection requirements specified in the MDA General Industry Standard protect employees from the adverse health effects that may result from their exposure to MDA. The major information-collection requirements of the MDA General Industry Standard include notifying employees of their MDA exposures, implementing a written compliance program, providing examining physicians with specific information, ensuring that employees receive a copy of their medical-examination results, maintaining employees' exposure-monitoring and medical records for specific periods, and providing access to these records by OSHA, the National Institute for Occupational Safety and Health, the affected employees, and their authorized representatives.

II. Proposed Actions

OSHA proposes to reduce the existing burden hour estimate, and to extend OMB's approval of, the collection-of-information (paperwork) requirements contained in the MDA General Industry Standard. The Agency is reducing its previous burden hour estimate of 722 hours, by 401 hours, as a result of lowering the estimate of MDA

establishments in the general industry section. OSHA will summarize the comments submitted in response to this notice, and will include this summary in the request to OMB to extend the approval of the information-collection requirements contained in the MDA General Industry Standard.

Type of Review: Extension of currently approved information-collection requirements.

Title: MDA General Industry Standard (29 CFR 1910.1050).

OMB Number: 1218-0184.

Affected Public: Business or other for-profit; Federal government; state, local or tribal government.

Number of Respondents: 10.

Frequency: On occasion.

Total Responses: 652.

Average Time per Response: Varies from 5 minutes to provide information to the examining physician to 2 hours to update and review compliance plans.

Estimated Total Burden Hours: 294.

Estimated Cost (Operation and Maintenance): \$13,787.
