

**DEPARTMENT OF AGRICULTURE****Natural Resources Conservation Service****TE 36 Thin-Mat Floating Marsh Enhancement Demonstration Project Terrebonne Parish, Louisiana**

**AGENCY:** Natural Resources Conservation Service, Agriculture.

**ACTION:** Notice of Finding of No Significant Impact.

**SUMMARY:** Pursuant to Section 102 (2)(C) of the National Environmental Policy Act of 1969; the Council on Environmental Quality Guidelines (40 CFR Part 1500); and the Natural Resources Conservation Service Guidelines (7 CFR Part 650); the Natural Resources Conservation Service, U.S. Department of Agriculture, gives notice that an environmental impact statement is not being prepared for the Thin-Mat Floating Marsh Demonstration Project, Terrebonne Parish, Louisiana.

**FOR FURTHER INFORMATION CONTACT:** Donald W. Gohmert, State Conservationist, Natural Resources Conservation Service, 3737 Government Street, Alexandria, Louisiana 71302; telephone (318) 473-7751.

**SUPPLEMENTARY INFORMATION:** The environmental assessment of the federally assisted action indicates that the project will not cause significant local, regional, or national impacts on the environment. As a result of these findings, Donald W. Gohmert, State Conservationist, has determined that preparation and review of an environmental impact statement is not needed for this project.

The demonstration project will test the potential of restoring thin-mat floating marsh to thick-mat maidencane (*Panicum hemitomon*) floating marsh using three methods and all possible combinations thereof: (1) Transplanting maidencane into the thin-mat marsh, (2) inducing growth through fertilization, and (3) inducing growth through reduction of mammalian grazing. The project directly impacts less than 4 acres of fresh marsh within the northwestern part of the Penchant Basin in Terrebonne Parish. The potential benefits of developing management tools to restore a large area of existing thin-mat marsh exceed the risk of negatively impacting less than 4 acres.

The Notice of Finding of No Significant Impact (FONSI) has been forwarded to the Environmental Protection Agency and to various federal, state, and local agencies and interested parties. A limited number of copies of the FONSI are available to fill

single copy requests at the above address. Basic data collected during the environmental assessment are on file and may be reviewed by contacting Donald W. Gohmert.

No administrative action on implementation of the proposal will be taken until 30 days after the date of this publication in the **Federal Register**.

Type of Request: Revision of a currently approved information collection.

Abstract: The objective of the Intermediary Relending Program (IRP) is to improve community facilities and employment opportunities and increase economic activity in rural areas by financing business facilities and community development. This purpose is achieved through loans made by the Rural Business-Cooperative Service (RBS) to intermediaries that establish programs for the purpose of providing loans to ultimate recipients for business facilities and community development. The regulations contain various requirements for information from the intermediaries and some requirements may cause the intermediary to seek information from ultimate recipients. The information requested is necessary for RBS to be able to process applications in a responsible manner, make prudent credit and program decisions, and effectively monitor the

intermediaries' activities to protect the Government's financial interest and ensure that funds obtained from the Government are used appropriately. It includes information to identify the intermediary, describe the intermediary's experience and expertise, describe how the intermediary will operate its revolving loan fund, provide for debt instruments, loan agreements, and security, and other material necessary for prudent credit decisions and reasonable program monitoring.
