

II. Method of Collection

Typically, in the western Pacific, a permit applicant files an OMB-approved application form and, if applicable, a supplemental information sheet that collects basic information on the owner of the fishing vessel, the operator, and the vessel itself. Expiration of the permits is not uniform. Some permits expire annually, others are on a two-year cycle, and still others expire every 5 years. The crustacean limited entry permits have no expiration date and become invalid when they are transferred to another owner through established permit procedures.

The coastal pelagics fishery permit is a new requirement implemented in January 2000. Permits are valid indefinitely until either the holder transfers the permit or surrenders it.
