

Exchange proposes to amend By-Law Article X, § 10–20 to reduce the number of these Committees from three (one respecting each of the three trading floors) to one, as well as to ensure that the Committee will contain at least as many non-industry as industry members. The current language requires that the present Committees are “equally balanced”. The proposed language gives the Exchange more flexibility to constitute the proposed Committee while retaining the appropriate non-industry representation.⁷ The exchange proposes to amend By-Law Article X, § 10–16, 10–17 and 10–19 to conform the language contained therein to the existence of only one Quality of Markets Committee. The Exchange believes that these changes should also improve the input of the Quality of Markets Committee on the overall committee process by taking advantage of the overlap in issues emanating from each of the three trading floors, as well as providing for more singular input. In summary, these proposed amendments are designed to create a more efficient committee process and save the Exchange certain costs related to convening committees.

Given the composition requirements of the Committees and the scheduling problems associated with convening meetings in Philadelphia for a significant number of public, non-industry as well as industry Governors not associated with Philadelphia-based member organizations, the proposed amendments are designed to make the Committee process more efficient, while lowering costs. The Exchange believes that this consolidation of committee functions will be beneficial to the functioning of the committee process by decreasing the number of committee assignments for some public, non-industry and industry Governors, allowing them to concentrate more of their energies to their remaining assignments. The Exchange believes the quality of information received from the committees by the Board of Governors will not be affected by the consolidation.

2. Basis

The Exchange believes that the proposal is consistent with Section 6 and, specifically with Section 6(b)(3) of the Act, in that it continues to assure Phlx members fair representation in the administration of the Exchange’s affairs

⁷ The proposed language provides that “[t]he [Quality of Markets] Committee will have broad representation that shall include at least as many non-industry as industry Committee members.” See Proposed Phlx By-Law Art. X, § 10.20.
