

Rule 15g-5 requires brokers and dealers to disclose to customers the amount of compensation to be received by their sales agents in connection with penny stock transactions. It is estimated that approximately 270 respondents incur an average of 100 hours annually to comply with the rule.

Rule 17a-8 requires brokers and dealers to make and keep certain reports and records concerning their currency and monetary instrument transactions. The requirements allow the Commission to ensure that brokers and dealers are in compliance with the Currency and Foreign Transactions Reporting Act of 1970 ("Bank Secrecy Act") and with the Department of the Treasury regulations under that Act. The reports and records required under this rule initially are required under Department of the Treasury regulations. Additional burden hours and costs are not imposed by this rule.

Rule 17Ac2-1 requires transfer agents to register with the Commission, the Comptroller of the Currency, the Board of Governors of the Federal Reserve System, or the Federal Deposit Insurance Corporation, and to amend their registration. It is estimated that on an annual basis, the Commission will receive approximately 250 applications for registration on Form TA-1 from transfer agents required to register as such with the Commission. Included in this figure are amendments made to Form TA-1 as required by Rule 17Ac2-1(c). Based upon past submissions, the staff estimates that the average number of hours necessary to comply with the requirements of Rule 17Ac2-1 is one and one-half hours, with a total burden of 375 hours.

Rule 19d-2 prescribes the form and content of applications to the Commission by persons desiring stays of final disciplinary sanctions and summary action of self-regulatory organizations ("SRO") for which the Commission is the appropriate regulatory agency. It is estimated that approximately 30 respondents will utilize this application procedure annually, with a total burden of 90 hours, based upon past submissions. The staff estimates that the average number of hours necessary to comply with the requirements of Rule 19d-2 is 3 hours.

An agency may not conduct or sponsor, and a person is not required to respond to, a collection of information unless it displays a currently valid control number.

Background and Purpose

The Coast Guard, EPA, RSPA and MMS developed the National Preparedness for Response Exercise Program (PREP) to provide guidelines for compliance with the Oil Pollution Act of 1990 (OPA 90) pollution response exercise requirements (33 U.S.C. 1321(j)). The guiding principles for PREP distinguish between internal and external exercises. Internal exercises are

conducted within the plan holder's organization. External exercises extend beyond the plan holder's organization to involve other members of the response community. External exercises are separated into two categories: (1) Area exercises, and (2) Government-initiated unannounced exercises. These exercises are designed to evaluate the entire response mechanism in a given area to ensure adequate pollution response preparedness.

Since 1994, the USCG, EPA, MMS, and Office of Pipeline Safety (OPS) have published a triennial schedule of Area exercises. In short, the Area exercises involve the entire response community (Federal, State, local, and industry participants) and therefore, require more extensive planning than other oil spill response exercises. The PREP

Guidelines describe all of these exercises in more detail. This notice announces the next triennial schedule of Area exercises.

If a company wants to volunteer for an Area exercise, a company representative may call either the Coast Guard or EPA On-Scene Coordinator (OSC) where the exercise is scheduled. Alternatively, if a company is interested in participating in an exercise where Coast Guard is the OSC, a representative may call Mr. Robert Pond at 202-267-6603, and he can facilitate scheduling the volunteer. Although either method will provide the same result, contact at the local level, with the OSC, is preferred.

The following is the revised PREP schedule for calendar years 2000, 2001, and 2002.
