III. What is the Agency's Authority for Taking this Action?

Section 5(h)(1) of TSCA and 40 CFR 720.38 authorize EPA to exempt persons from premanufacture notification (PMN) requirements and permit them to manufacture or import new chemical substances for test marketing purposes, if the Agency finds that the manufacture, processing, distribution in commerce, use, and disposal of the substances for test marketing purposes will not present an unreasonable risk of injury to health or the environment. EPA may impose restrictions on test marketing activities and may modify or

revoke a test marketing exemption upon receipt of new information which casts significant doubt on its finding that the test marketing activity will not present an unreasonable risk of injury.

IV. What Action is the Agency Taking?

EPA has approved the above-referenced TME. EPA has determined that test marketing the new chemical substance, under the conditions set out in the TME application and in this notice, will not present any unreasonable risk of injury to health or the environment.

V. What Restrictions Apply to this TME?

The test market time period, production volume, number of customers, and use must not exceed specifications in the application and this notice. All other conditions and restrictions described in the application and in this notice must also be met.

TME 00-1.

Date of Receipt: January 7, 2000.

Notice of Receipt: February 25, 2000 (65 FR 10086).

Applicant: The Procter and Gamble Company.

Chemical: (G) Salt of substituted aliphatic benzene sulfonic acid

Use: (G) Consumer product ingredient

Production Volume: CBI

Number of Customers: 300,000 to 625,000 households

Test Marketing Period: 20 months, commencing on first day of commercial manufacture.

The following additional restrictions apply to this TME. A bill of lading accompanying each shipment must state that the use of the substance is restricted to that approved in the TME.

In addition, the applicant shall maintain the following records until 5 years after the date they are created, and shall make them available for inspection or copying in accordance with section 11 of TSCA:

1. Records of the quantity of the TME substance produced and the date of manufacture.

2. Records of dates of the shipments to each customer and the quantities supplied in each shipment.

3. Copies of the bill of lading that accompanies each shipment of the TME substance.

VI. What was EPA's Risk Assessment for this TME?

EPA identified no significant environmental concerns for the test market substance. EPA's concern for lung toxicity and other human health effects were mitigated based on the

physical form of the substance (imported as beads) and the closed processing system. Therefore, the test market activities will not present any unreasonable risk of injury to human health or the environment.

VII. Can EPA Change Its Decision on this TME in the Future?

Yes. The Agency reserves the right to rescind approval or modify the conditions and restrictions of an exemption should any new information that comes to its attention cast significant doubt on its finding that the test marketing activities will not present any unreasonable risk of injury to human health or the environment.

I. General Information

A. Introduction

1. The *Auction Public Notice* announces the procedures and minimum opening bids for the upcoming auction of licenses for Fixed, Mobile, and Broadcasting services in the 747-762 and 777-792 MHz bands ("Auction No. 31"). On January 10, 2000, the Wireless Telecommunications Bureau ("Bureau") released a public notice, (*See* "Auction of Licenses in the 747-762 and 777-792 MHz Bands Scheduled for May 10, 2000; Comment Sought on Reserve Prices or Minimum Opening Bids and Other Auction Procedural Issues," Public Notice, ("Auction No. 31 *Comment Public Notice*"), 65 FR 2956 (January 19, 2000) seeking comment on the establishment of reserve prices or minimum opening bids for Auction No. 31, in accordance with the Balanced Budget Act of 1997. (*See* section 3002(a), Balanced Budget Act of 1997, Public Law 105-33, 111 Stat. 251 (1997) ("Budget Act"); 47 U.S.C. 309(j)(4)(F). In addition, the Bureau sought comment on a number of procedures to be used in Auction No. 31. (*See* *Auction No. 31 Comment Public Notice* at 5-6.) The Bureau received three comments and five reply comments in response to the *Auction No. 31 Comment Public Notice*.

i. Background of Proceeding

2. The 746-806 MHz band has historically been used exclusively by television stations (Channels 60 through 69). Incumbent analog television broadcasters are permitted by statute to continue operations in this band until their markets are converted to digital television ("DTV"). (*See* 47 U.S.C. 337(e); *See* also *Advanced Television Systems and Their Impact Upon Existing Television Broadcast Service*, MM Docket No. 87-268, *Reconsideration of Fifth Report and Order*, 63 FR 15774 (April 1, 1998), 13 FCC Rcd 6860, 6887 (1998). The Budget Act directed the Commission to reallocate this spectrum for public safety and commercial use by December 31, 1997, (*See* section 337(a) of the Communications Act, 47 U.S.C. 337(a) and to commence competitive bidding for the commercial licenses on the reallocated spectrum after January 1, 2001. (*See id.* at section 337(b)(2)(a). In November 1999, Congress enacted a consolidated appropriations statute that revised the latter instruction. (*See Consolidated Appropriations*, Appendix E, section 213. *See* also 145 Cong. Rec. H12493-94 (Nov. 17, 1999). This legislation accelerated the schedule for auction of the commercial spectrum bands, and requires that the proceeds from the auction of these bands be deposited in the U.S. Treasury by September 30, 2000.

ii. Licenses To Be Auctioned

3. The licenses available in this auction consist of one 20 megahertz license (consisting of paired 10 megahertz blocks) and one 10 megahertz license (consisting of paired 5 megahertz blocks) in each of six regions to be known as the 700 MHz band economic area groupings ("700 MHz Band EAGs"). The following table contains the Block/Frequency Band Limits Cross-Reference List for each region in Auction No. 31:

747-762 AND 777-792 MHz ALLOCATIONS

License suffix	Frequencies
C	747-752, 777-782
D	752-762, 782-792
