

Upon receiving an application, BTS will conduct an initial review to determine if it meets the eligibility criteria and contains all of the items specified under the Application Contents section of this announcement. A BTS evaluation committee will then review each complete application from an eligible recipient using the evaluation criteria listed below (the order of criteria does not designate priority) and the BTS Director will select the final grants. The evaluation criteria are:

(1) How well does the proposal support BTS's strategic goals of improving the quality, comparability, completeness, timeliness, relevance, and utility of transportation data? How well does the proposal serve the broad transportation interests of the United States?

(2) How innovative is the proposed activity? To what extent is the work being accomplished elsewhere?

(3) How much experience has the applicant demonstrated in one or more of the following areas—collecting, analyzing, storing, or disseminating transportation data, particularly data collected or disseminated by BTS, and working with theoretical statistical issues concerning transportation data?

(4) Does the applicant have the professional qualifications and team members necessary for satisfactory performance of the proposed activity?

(5) How well does the technical approach and proposed costs reflect an understanding of the procedures necessary to complete the required tasks?

(6) To what degree does the proposal include cost-sharing? More weight will be given to proposals with cash contributions than in-kind services. For awards of \$100,000 or more, BTS requires cash contributions of 50 percent toward the total project's cost.

V. Amount of Funds Available and Period of Support

We anticipate that approximately \$500,000 per year will be designated to support grants over the next five years, subject to the availability of appropriated funds. This estimate does not bind BTS to a specific number of offers or awards, nor to a specific amount of funding support for particular awards or awards in aggregate. It is anticipated that individual awards amounts, based upon demonstrated needs, will likely range from \$50,000 to \$200,000, though BTS has not established minimum or maximum funding levels.

Given the amount of funds available, applicants are strongly encouraged to

seek other funding opportunities to supplement the federal funds. Preference will be given to applicants with cost sharing proposals from within or outside their organizations.

The period of time of awards will vary with the complexity of the project and it is possible that grants will be awarded for periods greater than one year.

VI. BTS Involvement

BTS involvement, if any, will vary by award. If you anticipate BTS involvement, you must note this in your project narrative and any support BTS provides will be specified in the award agreement. BTS will assign a liaison to serve as the primary contact regarding the grant.

VII. Terms and Conditions of Award

(1) Prior to award, each grantee will be required to complete additional government application forms, such as OMB SF-424B (Assurances—Nonconstruction Programs) and with the certification requirements of 49 CFR part 20, Department of Transportation New Restrictions on Lobbying, and 49 CFR part 29, Department of Transportation Government-Wide Debarment and Suspension (Non-Procurement) and Government-Wide Requirements for Drug Free Workplace (Grants).

(2) Each grantee shall submit a program implementation plan no more than one month after award. The BTS liaison will review and comment, if necessary.

(3) Each grantee shall submit quarterly progress reports, a draft final report, and a final report that reflects the BTS liaison's comments.

Thank you for your interest in our Transportation Statistics Research Grants program.

Ashish Sen,

Director.
