Estimated Recordkeeping and Reporting Cost Burden on Respondents

The PrintSTEP evaluation utilizes telephone interviews and written data collection forms to collect all the data necessary from the respondent. The only cost to the respondents resulting from this survey is their time, which is covered in the section above. There are no other costs to the respondents and this section, therefore, is not applicable.

Burden means the total time, effort, or financial resources expended by persons to generate, maintain, retain, or disclose or provide information to or for a Federal agency. This includes the time needed to review instructions; develop, acquire, install, and utilize technology and systems for the purposes of collecting, validating, and verifying information, processing and maintaining information, and disclosing and providing information; adjust the existing ways to comply with any previously applicable instructions and requirements; train personnel to be able to respond to a collection of information; search data sources; complete and review the collection of information; and transmit or otherwise disclose the information.
