

enforcement training and equipment for new and existing officers. This program, which complements the COPS Office's efforts to fund 100,000 additional community policing officers and support innovative community policing, will enhance law enforcement infrastructures and community policing efforts in these Tribal communities, many of which have limited resources and are affected by high rates of crime and violence.

The Tribal Resources Grant Program is part of a larger federal initiative which over the last three years, has resulted in the Department of Interior and Justice working in collaboration to improve law enforcement in tribal communities. A total of \$91.5 million has been appropriated to several DOJ agencies including the FBI, the Bureau of Justice Assistance (BJA), the Office of Juvenile Justice and Delinquency Prevention (OJJDP), the Corrections Program Office (CPO), and the COPS Office. COPS is coordinating with these agencies as well as with the Office of Law Enforcement Services of the Bureau of Indian Affairs to ensure that limited resources are not spent on duplicative efforts.

The Tribal Resources Grant will provide tribal communities with the resources to: hire new police officers; train new and existing officers in community policing, grants management and computer training as well as basic police training at a state academy or the Indian Police Academy in Artesia, NM; and provide basic standard issue equipment, ranging from bullet-proof vests and uniforms, to firearms and portable radios.

The Tribal Resources Grant Program emphasizes deployment of officers and resources into communities that are affected by high rates of crime and violence. Applicants must submit a written plan to retain their COPS-funded officer positions after federal funding has ended. This plan must be submitted to the COPS Office with the Tribal Resource Grant Program application.

A total of \$40,000,000 in funding will be available under the Tribal Resources Grant Program. The grant will cover a maximum federal Share of 75% of total project costs, including approved salary and benefits of entry-level police officers (up to a maximum of \$75,000 per officer over three years), basic law enforcement training and equipment, vehicles, and technology. A local match requirement of 25% of the total project costs is included in this program. A waiver of the local match requirement may be requested but will be granted only on the basis of documented

demonstrated fiscal hardship. Requests for waivers must be submitted with the application.

Tribes whose law enforcement services are provided by local policing agencies through contract arrangements are not eligible under this COPS program. However, tribes that do not meet the eligibility requirements for this program may apply to the COPS Office Universal Hiring Program for police officer positions only.

Receiving an award under the Tribal Resources Grant Program will not preclude grantees from future consideration under other COPS grant programs for which they are eligible.

The Catalog of Federal Domestic Assistance (CFDA) reference for this program is 16.710.

Dated: March 6, 2000.
