SUPPLEMENTARY INFORMATION:

Request for Comments

We encourage interested persons to participate in this information-gathering initiative by submitting written data, views, or other relevant documents. Persons submitting comments should include their names and addresses, and identify this notice (USCG-2000-6942) by the date and give the reasons for each comment. You may submit your comments and material by mail, delivery, fax, or electronic means to the Docket Management Facility at the address under **ADDRESSES**, but please submit your comments and material by only one means. Please submit all comments and attachments in an unbound format, no larger than 8½ x 11 inches, suitable for copying and electronic filing to the DOT Docket Management Facility at the address under **ADDRESSES**. If you want acknowledgement of receipt of your comments, please enclose a stamped, self-addressed post card or envelope. Comments received, whether submitted in writing to the docket or presented during the regional listening sessions, will be considered in refining the CFVSAP.

Background

In response to the alarming number of deaths in the fishing industry, the Coast Guard chartered a Task Force to identify ways to improve safety. The Task Force examined fishing vessel casualties in the context of historical data, reviewed the Coast Guard's existing Commercial Fishing Vessel Safety Program, reviewed past safety recommendations, and provided quick feedback to the fishing industry by recommending measures believed to have the greatest potential for reducing loss of life and property. The Task Force completed a report containing safety recommendations in March 1999 and presented the report to the Commercial Fishing Vessel Safety Advisory Committee (CFIVAC) and Coast Guard District Fishing Vessel Safety Coordinators. The Task Force report is available at <http://www.get.to/thefishingreport> or from Commandant (G-MOA), U.S. Coast Guard Headquarters, 2100 Second Street SW., Washington, DC 20593-0001, 202-267-1430. The Coast Guard consolidated the

Task Force recommendations commonly supported by both the CFIVAC and the District Fishing Vessel Safety Coordinators and subsequently developed the CFVSAP. The CFVSAP was presented at the October 4-5, 1999, meeting of the CFIVAC. The CFIVAC agreed with the concepts presented in the CFVSAP. Also, the CFIVAC agreed with the Coast Guard that holding regional listening sessions would result in valuable input from a larger segment of the fishing industry. By publication of this notice, the Coast Guard is seeking further feedback from fisherman on the CFVSAP. The CFVSAP is available at <http://www.uscg.mil/hq/g-m/advisory/cfivac/fishexpo99.pdf> or from Commandant (G-MOC), U.S. Coast Guard Headquarters, 2100 Second Street SW., Washington, DC 20593-0001, 202-267-2008.

Objective and Issues

The objective of the regional listening sessions and the request for comments is to receive information from the general public and the fishing industry pertaining to the CFVSAP and other possible safety issues affecting the fishing industry. The Coast Guard wishes to identify ways to improve safety in the fishing industry.

The Coast Guard is specifically interested in information pertaining to the following:

The most critical safety issues in your region.

Ways the Coast Guard might better communicate with the fishing industry.

Ways the Coast Guard might assist in improving safety in the fishing industry.

Ways the fishing industry might improve its safety record without Coast Guard or other government involvement.

The minimum level of training that should be considered in a training-based certificate program.

The most safety-beneficial composition of a vessel examination program.

Whether the Territorial Sea Baseline is the best reference parameter for setting certain safety equipment carriage requirements.

Format of Regional Listening Sessions

Each listening session will follow a presentation by the Coast Guard on the CFVSAP. After the presentation the audience will have an opportunity to comment on the specifics of the CFVSAP. The Coast Guard will then present a list of standardized issues similar to those contained in Objectives and Issues and then open the listening session to general comments from the audience.
