

designed as a guide for the reviewer. It covers all items that must be monitored by FEMA to ensure effective management of the IFG program.

FEMA Form 76-38, Floodplain Management Analysis, Executive Orders 11988, Floodplain Management Analysis, and 11990, Protection of Wetlands, place a responsibility on FEMA and the State to perform reviews before certain IFG assistance in the housing category can be approved. The review involves an eight step decision-making process if the action, such as providing funds for purchase of a

mobile home and the location (prior to the disaster) of the unit could affect a floodplain or wetland. The State is responsible for completing steps 3 and 4 of the process, while the Regions retains responsibility for steps 2, 6 and 7, with the State providing the background information for these three steps. Steps 1, 5 and 8 are jointly shared by the State and Region.

Abstract. This collection of information is essential to the effective monitoring and management of the State administered IFG Program by FEMA Regional Office. FEMA Regional staff

and Headquarters staff will utilize the information to effectively monitor and evaluate the States' administration of the IFG Program, thus enabling FEMA to assess compliance, consistency and uniformity with Federal requirements. It is FEMA's responsibility to ensure that States perform and adhere to FEMA regulations and policy guidance.

Affected Public: Federal, State, Local or Tribal Governments.

Estimated Total Annual Burden Hours: 814 hours.

FEMA form No.	No. of responses	Minutes per response (B)	Annual burden hours [(A x B)/60]
76-27	40	15	10.00
76-28	7200	5	600.00
76-29	40	30	20.00
76-32	40	30	20.00
76-34	40	240	160.00
76-38	2	120	4.00
	7362		814.00

Estimated Cost. The total estimated annual cost to the respondent States is \$13,789.16. The cost is determined by the average hourly rate of a GS9/5 (\$16.94) times the 814 estimated annual burden hours. The total estimated annual cost to the Federal Government is \$9,213.25. The cost is determined from calculating the amount of time (5%) that a Senior Federal employee spends reviewing the accuracy the forms and multiplying it by their annual salary of roughly \$80,000 (GS14/5). Then, we add it to the amount of time (25%) that a data entry clerk spends inputting these figures into our database (25%) and multiplying it by their annual salary of \$20,853. (4,000+5,213.25=9,213.25) This cost covers all responses submitted by all respondents.
