

required under 5 CFR 1320.8(d), soliciting comments on this collection of information was published on 07/31/1998, one comment was received and evaluated.

Burden Statement: The annual public reporting and record keeping burden for this collection of information is estimated to average 52 hours per response. Burden means the total time, effort, or financial resources expended by persons to generate, maintain, retain, or disclose or provide information to or for a Federal agency. This includes the time needed to review instructions; develop, acquire, install, and utilize technology and systems for the purposes of collecting, validating, and verifying information, processing and maintaining information, and disclosing and providing information; adjust the existing ways to comply with any previously applicable instructions and requirements; train personnel to be able to respond to a collection of information; search data sources; complete and review the collection of information; and transmit or otherwise disclose the information.

Respondents/Affected Entities: Owners and operators of aerospace manufacturing or rework facilities.

Estimated Number of Respondents: 16,402.

Frequency of Response: start-up, and semi-annual.

Estimated Total Annual Hour Burden: 856,437 hours.

Estimated Total Annualized Cost Burden: \$561,000.

Send comments on the Agency's need for this information, the accuracy of the provided burden estimates, and any suggested methods for minimizing respondent burden, including through the use of automated collection techniques to the following addresses. Please refer to EPA ICR No 1687.05 and OMB Control No. 2060-0314 in any correspondence.

Ms. Sandy Farmer, U.S. Environmental Protection Agency, Office of Environmental Information, Collection Strategies Division (2822), 1200 Pennsylvania Ave., NW, Washington, DC 20460; and
Office of Information and Regulatory Affairs, Office of Management and Budget, Attention: Desk Officer for EPA, 725 17th Street, NW, Washington, DC 20503

Dated: March 13, 2000.

Oscar Morales,

Director, Collection Strategies Division.

Prevention of Significant Deterioration of Air Quality (PSD) Final Determination; Indiana

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice.

SUMMARY: The purpose of this document is to announce that on September 8, 1999, the Environmental Protection Agency's Environmental Appeals Board (EAB) dismissed two appeals of a permit issued to the ConAgra Soybean Processing Company by the Indiana Department of Environmental Management (IDEM) pursuant to the Prevention of Significant Deterioration of Air Quality (PSD) regulations in the Clean Air Act, as administered by the State of Indiana.

DATES: The effective date of EAB's decision denying review is September 8, 1999.

ADDRESSES: The documents relevant to the above action are available for public inspection during normal business hours at the following address: Environmental Protection Agency, Region 5, 77 West Jackson Boulevard (AR-18J), Chicago, Illinois 60604.

FOR FURTHER INFORMATION CONTACT:

Pallavi Reddy, United States Environmental Protection Agency, Region 5, 77 W. Jackson Blvd. (AR-18J), Chicago, Illinois 60604, (312) 886-6204.

SUPPLEMENTARY INFORMATION: On August 14, 1998, the IDEM issued construction permit number CP-129-8541-0039 under the PSD requirements of the Clean Air Act of 1990 to ConAgra Soybean Processing Company for the construction of a new soybean processing plant in Posey County, Indiana. On September 14, 1998, two separate entities, Valley Watch Inc., a non-profit environmental group, and Consolidated Grain and Barge Company filed petitions for review of this permit with the EPA's EAB (PSD Appeal Nos. 98-27 & 98-28). The petitioners alleged that: (1) IDEM improperly issued ConAgra's permit because the permit fails to demonstrate that the proposed facility will not cause or contribute to an exceedance of the National Ambient Air Quality Standard for ozone as required by the Act; (2) the permit fails to satisfy the requirements for pre-construction monitoring for PM-10; (3) IDEM improperly issued the permit because the increment consumption analysis for PM-10 does not comply with the requirements of 40 CFR

52.21(c), (k), and (m); and (4) the additional impacts analysis of the proposed project on economic growth, soils, vegetation, and visibility required by 40 CFR 52.21(o) was inadequate.

On October 18, 1999, the EAB denied the petitioners' request for review. The petitioners failed to prove that the permit or permit condition was based on a finding of fact or conclusion of law that was clearly erroneous, or to demonstrate that there was an exercise of discretion or important policy consideration warranting the EAB's discretionary review, as required by 40 CFR 124.19(a). The EAB also ordered IDEM to revise Condition 38 of the permit, which relates to emissions offsets, to strike reference to Federal law and specifically, 40 CFR 52.21(k).

Authority: 42 U.S.C. 7401 *et seq.*

Dated: March 9, 2000.

David A. Ullrich,

Acting Regional Administrator, Region 5.

Workshop on Information Needs To Address Children's Cancer Risk

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice of meeting.

SUMMARY: The EPA's Office of Research and Development and the National Institutes of Health's National Institute of Environmental Health Sciences (NIEHS) are co-sponsoring a workshop entitled, "Information Needs to Address Children's Cancer Risk." The main focus of the workshop is to discuss children's cancer risk assessment and related data needs to address issues that have arisen during public review of the Agency's 1999 Draft Revised Guidelines for Carcinogen Risk Assessment. These issues include: characterizing the ideal data set to adequately address children's cancer risk, and proposed approaches to using available data in the absence of the ideal data set. Invited participants represent the pediatric, toxicologic, and risk assessment communities and are leaders in the area of human health testing, research, and assessment.

DATES: The workshop will begin on Thursday, March 30, 2000, at 7:00 p.m. and end on Friday, March 31, 2000, at 4:30 p.m. There will be space available for observers on a first-come, first-served basis.
