SUPPLEMENTARY INFORMATION:

I. Proposed Collection

The Bureau of Labor Statistics (BLS) is soliciting comments concerning the proposed revision of the Consumer Price Index (CPI) Housing Survey Computer Assisted Data Collection (CADC). A copy of the proposed information collection request (ICR) can be obtained by contacting the individual listed in the **ADDRESSES** section of this notice.

II. Background

The Consumer Price Index (CPI) is the only index compiled by the U.S. Government that is designed to measure changes in the purchasing power of the urban consumer's dollar. The CPI is most widely used as a measure of inflation, and serves as an indicator of the effectiveness of Government economic policy. It also is used as a deflator of other economic series, that is, to adjust other series for price changes and to translate these series into inflation-free dollars.
