SUMMARY: On January 21, 2000, the Department issued a notice (65 FR 3409) announcing pilot projects which would permit selected school food authorities and State agencies to test alternatives to the application procedures and verification process for households participating in the National School Lunch Program. The January 21 notice advised interested parties that applications to conduct a pilot project must be postmarked no later than March 21, 2000. Subsequently, interested parties have advised the Department that the 60 days provided for submission of applications is not sufficient. This notice provides an additional 45 days by extending the date for submission of applications to the Food and Nutrition Service of the Department to May 5, 2000.

DATES: Applications to conduct a pilot project must be postmarked no later than May 5, 2000.

SUPPLEMENTARY INFORMATION:

Background

The Department published a notice in the **Federal Register** (FR 65 FR 3409) on January 21, 2000, announcing pilot projects which would permit selected school food authorities and State agencies to test alternatives to the free and reduced price application procedures and verification process for households participating in the National School Lunch Program. The Department provided interested parties 60 days in which to submit an application to participate. Subsequent to issuance of the notice, interested parties indicated that the 60-day submission period, ending March 21, 2000, does not provide sufficient time to develop an application.

The Department is eager to ensure that interested parties have sufficient time to develop and submit an application. To achieve this end, the Department will continue to receive applications postmarked no later than May 5, 2000.

Dated: March 15, 2000.

Samuel Chambers, Jr.,
Administrator.
