Abstract: The major objective of the EEP and DEIP is to expand U.S. agricultural exports by paying cash to exporters as bonuses, allowing them to sell U.S. agricultural products in targeted countries at competitive prices. Currently, 120 countries and 3 country regions are targeted export destinations and 820 exporters are eligible to participate under either or both programs. Under 7 CFR part 1494, exporters are required to submit the following: (1) information required for program participation (section 1494.301), (2) performance security (section 1494.401), (3) export sales information in connection with applying for a CCC bonus (section 1494.501), and (4) evidence of export and related information (section 1494.701). In addition, each exporter must maintain accurate records showing sales and deliveries of the eligible commodity exported in connection with an agreement made under the EEP or DEIP as outlined in section 1494.1001. The information collected is used by CCC to manage, plan for, evaluate the use of, and account for Government resources. The reports and records are required to ensure the proper and judicious use of public funds.

Estimate of Burden: The public reporting burden for these collections is estimated to average 0.45 hours per response.

Respondents: Exporters of U.S. agricultural commodities, banks or other

financial institutions, producer associations, export trade associations, and U.S. Government agencies.
