I. Background on the North Dakota Program

North Dakota: On December 15, 1980, the Secretary of the Interior conditionally approved the North Dakota program. You can find background information on the North Dakota program, including the Secretary's findings, the disposition of comments, and conditions of approval of the North Dakota program in the December 15, 1980 **Federal Register** (45 FR 82214). II. Description of the Proposed Amendment

By letter dated March 16, 2000, North Dakota sent to us a proposed amendment to its program (Amendment number XXIX), administrative record No. ND-DD-01 under SMCRA (30 U.S.C. 1201 *et seq.*). North Dakota sent the amendment to include changes made at its own initiative. The full text of the program amendment is available for you to read at the locations listed above under **ADDRESSES**.

Specifically, North Dakota proposes to revise its revegetation policy document to reflect changes in its approved State Program as follows: (1) to give mining companies the option of proving reclamation success for three out of five consecutive years, starting no sooner than the eighth year of the responsibility period; (2) that the time-in-place requirement for tree and shrub standards will be deemed satisfied if the mine operator demonstrates that no tree, shrub or half-shrub replanting has occurred during the last six years of the responsibility period; (3) to clarify the objectives section; (4) to add new provisions for adjusting North Dakota Agricultural Statistical Service crop yield to reflect certain management practices; (5) to include other factors, in addition to precipitation and temperature, in developing a cropland and/or tame pastureland regression equation to clinically adjust yield standards; (6) to add a statement to the

native grassland section that established plant species must be predominantly native; (7) to provide more consistency for the standards on native grassland diversity and seasonality, (8) to clarify sampling procedures regarding when plant growth forms must be weighed separately; and (9) miscellaneous minor changes and additions.

III. Public Comment Procedures

Under the provisions of 30 CFR 732.17(h), we are requesting your comments on whether the amendment satisfies the applicable program approval criteria of 30 CFR 732.15. If we approve the amendment, it will become part of the North Dakota program.

Please submit Internet comments as an ASCII file avoiding the use of special characters and any form of encryption. Please also include "Attn: SPATS No. ND-040-FOR" and your name and return address in your Internet message. IV. Procedural Determinations

Executive Order 12866

This rule is exempted from review by the Office of Management and Budget (OMB) under Executive Order 12866 (Regulatory Planning and Review).

Executive Order 12988

The Department of the Interior has conducted the reviews required by section 3 of Executive Order 12988 (Civil Justice Reform) and has determined that this rule meets the applicable standards of subsections (a) and (b) of that section. However, these standards are not applicable to the actual language of State regulatory programs and program amendments since each such program is drafted and promulgated by a specific State, not by OSM. Under sections 503 and 505 of SMCRA (30 U.S.C. 1253 and 1255) and the Federal regulations at 30 CFR 730.11, 732.15, and 732.17(h)(10), decisions on proposed State regulatory programs and program amendments submitted by the States must be based solely on a determination of whether the submittal is consistent with SMCRA and

its implementing Federal regulations and whether the other requirements of 30 CFR Parts 730, 731, and 732 have been met.

National Environmental Policy Act

No environmental impact statement is required for this rule since section 702(d) of SMCRA (30 U.S.C. 1292(d)) provides that agency decisions on proposed State regulatory program provisions do not constitute major Federal actions within the meaning of section 102(2)(C) of the National Environmental Policy Act (42 U.S.C. 4332(2)(C)).

Paperwork Reduction Act

This rule does not contain information collection requirements that require approval by OMB under the Paperwork Reduction Act (44 U.S.C. 3507 *et seq.*).

Regulatory Flexibility Act

The Department of the Interior has determined that this rule will not have a significant economic impact on a substantial number of small entities under the Regulatory Flexibility Act (5 U.S.C. 601 *et seq.*). The State submittal that is the subject of this rule is based upon counterpart Federal regulations for which an economic analysis was prepared and certification made that such regulations would not have a significant economic effect upon a substantial number of small entities. Accordingly, this rule will ensure that existing requirements previously promulgated by OSM will be implemented by the State. In making the determination as to whether this rule would have a significant economic impact, the Department relied upon the data and assumptions for the counterpart Federal regulations.

Unfunded Mandates

This rule will not impose a cost of \$100 million or more in any given year on any governmental entity or the private sector.
