

vectors and pharmaceutical compositions comprising (a) a replication defective adenovirus comprising a deletion in the E1A, E1B and E3 regions and further comprising a DNA segment encoding a specific protein of interest operatively linked to a promoter and (b) a pharmaceutically acceptable carrier for said vector. Examples of proteins of interest would include, but not be necessarily limited to, CFTR and α 1-antitrypsin.

The NIH seeks licensee(s) who, in accordance with requirements and regulations governing the licensing of government-owned inventions (37 CFR 404), has the most meritorious plan for the development of a therapeutic agent(s) to meet the needs of the public and with the best terms for the government. NIH intends to grant the selected licensee(s) a world-wide royalty-bearing license(s) to practice the inventions embodied in U.S. Patent 6,013,638 entitled "Adenovirus Comprising Deletions on the E1A, E1B and E3 Regions for Transfer of Genes to the Lung" U.S. Patent Application S/N 09/364,839 entitled "Adenovirus-Mediated Transfer of Genes to the Lung"; U.S. Patent Application S/N 09/307,141 entitled "Adenovirus-Mediated Transfer of Genes to the Lung" and U.S. Patent Application S/N 08/442,262 entitled "Replication Deficient Recombinant Adenovirus Vector". The United States of America is an assignee for the patent rights in these inventions.

ADDRESSES: Licensing information, a copy of the U.S. patent or applications referenced to above or a copy of the NIH License Application may be obtained by contacting Richard U. Rodriguez, M.B.A., at the Office of Technology Transfer, National Institutes of Health, 6011 Executive Boulevard, Suite 325, Rockville, Maryland 20852-3804 (telephone 301/496-7056 ext 287; fax 301/402-0220; and E-mail rr154z@nih.gov). A signed Confidential Disclosure Agreement is required to receive a copy of any patent application.

SUPPLEMENTARY INFORMATION: One of the hurdles to overcome in most forms of somatic gene therapy is the specific delivery of a therapeutic gene, encoding a therapeutic protein, to the organ manifesting the disease. In the case of the lung, a functional gene can be delivered directly to the respiratory epithelium by means of tracheal installation. One serious disadvantage with this approach is encountered with the use of vectors (such as retroviruses) that require proliferation of the target cells for expression of the newly transferred gene because only a small proportion of alveolar and airway

epithelial cells go through the proliferative cycle in one day and because a large proportion of these cells are terminally differentiated. Use of the claimed recombinant adenoviral vector to transfer a gene to the respiratory epithelium *in vivo* circumvents the problem of slow target-cell proliferation. Other advantages would include: rare recombination events; no known associations of human malignancies with adenoviral infections despite common human infection with adenoviruses; the adenovirus genome can be manipulated to accommodate foreign genes expressing proteins ranging in size from small peptides up to a peptide of 7.0 to 7.5 kB in length; and live adenovirus has been safely used as a human vaccine.

Dated: March 24, 2000.

Jack Spiegel,

Director, Division of Technology Development and Transfer, Office of Technology Transfer.

National Cancer Institute; Notice of Meeting

Pursuant to section 10(a) of the Federal Advisory Committee Act, as amended (5 U.S.C. Appendix 2), notice is hereby given of a meeting of the Advisory Committee to the Director, National Cancer Institute.

The meeting will be open to the public, with attendance limited to space available. Individuals who plan to attend and need special assistance, such as sign language interpretation or other reasonable accommodations, should notify the Contact Person listed below in advance of the meeting.

Name of Committee: Advisory Committee to the Director, National Cancer Institute.

Date: April 24, 2000.

Time: 11:30 AM to 1:30 PM.

Agenda: To discuss the Colorectal Cancer Progress Review Group Report.

Place: National Institutes of Health, National Cancer Institute, Building 31, Room 11A03, Bethesda, MD 20892, (Telephone Conference Call).

Contact Person: Susan J. Waldrop, Executive Secretary, National Institutes of Health, National Cancer Institute, Office of Science Policy, Bethesda, MD 20892, 301/496-1458.

(Catalogue of Federal Domestic Assistance Program Nos. 93.392, Cancer Construction; 93.393, Cancer Cause and Prevention Research; 93.394, Cancer Detection and Diagnosis Research; 93.395, Cancer

Treatment Research; 93.396, Cancer Biology Research; 93.397, Cancer Centers Support; 93.398; Cancer Research Manpower; 93.399, Cancer Control, National Institutes of Health, HHS)

Dated: March 24, 2000.

LaVerne Y. Stringfield,

Director, Office of Federal Advisory Committee Policy.

DEPARTMENT OF HEALTH AND HUMAN SERVICES

National Institutes of Health

National Cancer Institute; Notice of Meeting

Pursuant to section 10(d) of the Federal Advisory Committee Act, as amended (5 U.S.C. Appendix 2), notice is hereby given of the meeting of the Director's Consumer Liaison Group.

The meeting will be open to the public as indicated below, with attendance limited to space available. Individuals who plan to attend and need special assistance, such as sign language interpretation or other reasonable accommodations, should notify the Contact Person listed below in advance of the meeting.

The meeting will be closed to the public in accordance with the provisions set forth in sections 552b(c)(6) and 552b(c)(9)(B), Title 5 U.S.C., as amended. The discussions could reveal information of a personal nature where disclosure would constitute a clearly unwarranted invasion of personal privacy and the premature disclosure of discussions related to personnel and programmatic issues would likely to significantly frustrate the subsequent implementation of recommendations.

Name of Committee: Director's Consumer Liaison Group.

Date: April 17-18, 2000.

Open: April 17, 2000, 8:30 AM to 5:00 PM.

Agenda: NCI Director's Report; Status of the NCI Communications Reorganization; Clinical Trial System; Accessibility and appropriateness of NCI services and resources.

Place: National Institutes of Health, Natcher Conference Center, Conference Room D, Bethesda, MD 20892.

Closed: April 18, 2000, 8:30 AM to 4:00 PM.

Agenda: To discuss confidential administrative and personnel issues related to membership and functioning of the DCLG.

Place: National Institutes of Health, Natcher Conference Center, Conference Room D, Bethesda, MD 20892.

Contact Person: Elaine Lee, Acting Executive Secretary, Office of Liaison

Activities, National Institutes of Health, National Cancer Institute, Federal Building 6C10, Bethesda, MD 20892, (301) 594-3194.

National Cancer Institute; Notice of Closed Meeting

Pursuant to section 10(d) of the Federal Advisory Committee Act, as amended (5 U.S.C. Appendix 2), notice is hereby given of the following meeting.

The meeting will be closed to the public in accordance with the provisions set forth in sections 552b(c)(4) and 552b(c)(6), Title 5 U.S.C., as amended. The contract proposals and the discussions could disclose confidential trade secrets or commercial property such as patentable material, and personal information concerning individuals associated with the contract proposals, the disclosure of which would constitute a clearly unwarranted invasion of personal privacy.

Name of Committee: National Cancer Institute Special Emphasis Panel, SBIR Topic 179—Encoding Surgical Pathology Data into Standard Nomenclature within XML.

Date: April 6, 2000.

Time: 1:00 PM to 5:00 PM.

Agenda: To review and evaluate contract proposals.

Place: Executive Plaza North, 6130 Executive Boulevard, Conference Room E, Rockville, MD 20852, (Telephone Conference Call).

Contact Person: Kirt Vener, Branch Chief, Special Review, Referral and Resources Branch, Division of Extramural Activities, National Cancer Institute, National Institutes of Health, 6116 Executive Boulevard, Room 8072, Bethesda, MD 20892, 301/496-7174.

This notice is being published less than 15 days prior to the meeting due to the timing limitations imposed by the review and funding cycle.
