ACTION: Notice.

SUMMARY: State Department's Bureau for International Narcotics and Law Enforcement Affairs (INL) developed the

Training continues to focus on combating international organized crime, financial crimes, and narcotics trafficking. The goal of the program is to increase professionalism and develop the technical capabilities of law enforcement institutions to combat organized crime and to assure that through international law enforcement cooperation, U.S. agencies and their foreign counterparts succeed in intercepting the movement of transnational organized criminal elements into the U.S.

The ACTTA program continues to include the participation of non-Federal agencies (e.g., universities, state/local government agencies, private non-profit organizations) in the delivery of law enforcement training and technical assistance to Russia, the NIS and Hungary and Slovakia. Program Objectives

The goal of the ACTTA program is to increase the technical capabilities of foreign country law enforcement institutions to control organized crime, combat corruption, institute democratic practices, and to assure that through international law enforcement cooperation, U.S. agencies succeed in intercepting the movement of transnational organized criminal elements into the U.S.

The ACTTA program has been designed to provide assistance to foreign governments which will complement the training and assistance provided by US Federal agencies. All training and assistance of the ACTTA program should be focused on city or local police forces, with a concentration out of the capital cities.

The program objectives of the ACTTA program are: (1) combat the growing threat to U.S. national security posed by the broad range of organized crime activities, (2) help emerging democracies strengthen their national and law enforcement institutions to counter illegal criminal activities, (3) help emerging democracies develop laws and prosecutorial frameworks to counter organized crime activities, and (4) provide foreign law enforcement institutions with the skills to detect,
