ACTION: Notice.

SUMMARY: On December 27, 1999, EPA received a petition under section 21 of the Toxic Substances Control Act (TSCA) from People for the Ethical Treatment of Animals (PETA) on its own behalf and on behalf of four other organizations. The petition requests that EPA initiate TSCA rulemaking proceedings with respect to all chemicals included on the HPV (High Production Volume chemical) Challenge Program list as updated through the date

of initiation of the requested proceedings. Specifically, the petition requests that EPA issue a TSCA section 8(a) Preliminary Assessment Information Reporting (PAIR) rule and a Health and Safety Data Reporting rule under TSCA section 8(d). For the reasons set forth in this notice, EPA has denied the petition to initiate rulemaking.

II. Background

A. What is a TSCA Section 21 Petition?

Section 21 of TSCA allows citizens to petition EPA to initiate a proceeding for the issuance, amendment, or repeal of a rule under TSCA sections 4, 6, or 8 or an order under TSCA sections 5(e) or 6(b)(2). A section 21 petition must set forth facts which the petitioner believes establish the need for the action requested. EPA is required to grant or deny the petition within 90 days of its receipt. If EPA grants the petition, the Agency must promptly commence an appropriate proceeding. If EPA denies the petition, the Agency must publish its reasons for the denial in the **Federal Register**. Within 60 days of denial or no action, petitioners may commence a civil action in a U.S. District Court to compel initiation of the requested rulemaking. When reviewing a petition for a new rule, as in this case, the court must provide an opportunity for *de novo* review of the petition. Pursuant to TSCA section 21(b)(4)(B)(ii), "if the petitioner demonstrates to the satisfaction of the court by a preponderance of evidence that ... there is a reasonable basis to conclude that the issuance of such [TSCA section 8 rules] is necessary to protect health or the environment against an unreasonable risk of injury to health or the environment" the court can order EPA to initiate the requested action.
