#### Carbon Steel Wire Rope from Mexico: Preliminary Results of Antidumping Duty Administrative Review and New Shipper Review, and Determination Not To Revoke the Antidumping Duty Order in Part

**AGENCY:** Import Administration, International Trade Administration, Department of Commerce.

**ACTION:** Notice of preliminary results of antidumping duty administrative review and new shipper review, and determination not to revoke the antidumping duty order in part.

**SUMMARY:** The Department of Commerce (the Department) is conducting an administrative review of the antidumping duty order on carbon steel wire rope from Mexico in response to requests by respondent Aceros Camesa S.A. de C.V. (Camesa) and petitioner, the Committee of Domestic Steel Wire Rope and Specialty Cable Manufacturers (the Committee). Camesa also requested that the order be revoked as it pertains to sales of its products to the United States. This review covers exports of subject merchandise to the United States during the period March 1, 1998 through February 28, 1999.

We have preliminarily determined that Camesa’s sales have been made below normal value (NV). If these preliminary results are adopted in our final results of this administrative review, we will instruct the U.S. Customs Service to assess antidumping duties based on the difference between the export price (EP) or constructed export price (CEP) and the NV.

The Department is also conducting a new shipper review of the antidumping duty order on carbon steel wire rope from Mexico in response to a request by respondent Cablesa S.A. de C.V. (Cablesa).<sup>1</sup> This new shipper review also covers exports of subject merchandise to the United States during the period March 1, 1998 through February 28, 1999.

We have preliminarily determined that Cablesa’s sales have not been made below NV. If these preliminary results are adopted in our final results, we will instruct the U.S. Customs Service to liquidate appropriate entries without regard to antidumping duties.

Interested parties are invited to comment on these preliminary results. Parties who submit comments are requested to submit with each comment a statement of the issue and a brief summary of the comment.
