SUPPLEMENTARY INFORMATION: Section 3506 of the Paperwork Reduction Act of 1995 (44 U.S.C. Chapter 35) requires that the Office of Management and Budget (OMB) provide interested Federal agencies and the public an early opportunity to comment on information collection requests. OMB may amend or waive the requirement for public consultation to the extent that public participation in the approval process would defeat the purpose of the information collection, violate State or Federal law, or substantially interfere with any agency's ability to perform its statutory obligations. The Leader, Information Management Group, Office of the Chief Information Officer, publishes that notice containing proposed information collection requests prior to submission of these requests to OMB. Each proposed information collection, grouped by office, contains the following: (1) Type of review requested, e.g. new, revision, extension, existing or reinstatement; (2) Title; (3) Summary of the collection; (4) Description of the need for, and proposed use of, the information; (5) Respondents and frequency of collection; and (6) Reporting and/or Recordkeeping burden. OMB invites public comment.

Dated: April 7, 2000.

William Burrow,

Leader, Information Management Group, Office of the Chief Information Officer.

Office of the Undersecretary

Type of Review: New.

Title: Supplemental Study of the Technology Literacy Challenge Fund (TLCF).

Frequency: One time.

Affected Public: State, Local, or Tribal Gov't, SEAs or LEAs.

Reporting and Recordkeeping Hour Burden:

Responses: 636.

Burden Hours: 970.

Abstract: This study will collect and analyze information about the implementation and outcomes of the Technology Literacy Challenge Fund at the state and local levels. Drawing upon sources such as the annual state TLCF performance reports, local technology plans, and survey work, this study will produce a national representative picture of TLCF's contributions to the availability and use of technology in schools and provide information on

targeting, flexibility and other key aspects of the program.

Requests for copies of the proposed information collection request may be accessed from <http://edicsweb.ed.gov>, or should be addressed to Vivian Reese, Department of Education, 400 Maryland Avenue, SW, Room 5624, Regional Office Building 3, Washington, DC 20202-4651. Requests may also be electronically mailed to the internet address OCIO_IMG_Issues@ed.gov or faxed to 202-708-9346. Please specify the complete title of the information collection when making your request. Comments regarding burden and/or the collection activity requirements should be directed to Jacqueline Montague at (202) 708-5359 or via her internet address Jackie_Montague@ed.gov. Individuals who use a telecommunications device for the deaf (TDD) may call the Federal Information Relay Service (FIRS) at 1-800-877-8339.

BILLING CODE 6717-01-M

DEPARTMENT OF ENERGY

Federal Energy Regulatory Commission

[Docket No. CP00-141-000]

Northwest Pipeline Corporation; Notice of Application

April 7, 2000.

Take notice that on March 28, 2000, Northwest Pipeline Corporation (Northwest), 295 Chipeta Way, Salt Lake City, Utah 84158, filed in Docket No. CP00-141-000 an application pursuant

to Sections 7(c) and 7(b) of the Natural Gas Act for permission and approval for Northwest to construct and operate relocated replacement pipeline segments and to abandon the replaced pipeline segments, near the White River in King County, Washington to preserve the integrity of Northwest's mainline while the river migrates, all as more fully set forth in the application which is on file with the Commission and open to public inspection. This filing may be viewed on the web at <http://www.ferc.fed.us/online/rims.htm> (call 202-208-2222 for assistance).

Northwest proposes to replace approximately 1,900 feet of both its 26-inch mainline and its 30-inch mainline loop on either side of the White River by installing new 26-inch and 30-inch pipelines at a lower depth and offset from its existing right-of-way and then abandoning the replaced pipeline segments by removal. Northwest also proposes to remove a previously retired 665-foot segment of 26-inch pipeline crossing the White River.

Northwest states that due to potential issues with threatened species in the White River, Northwest is seeking case-specific approvals herein rather than pursuing this pipeline replacement project under its existing blanket certificate authority.

Northwest declares that the total estimated cost for the proposed project is approximately \$5,604,000, comprised of approximately \$3,871,000 for the installation of replacement pipeline and approximately \$1,733,000 for removal of replaced pipeline and appurtenances. Since this project is designed to maintain safety and reliability of Northwest's transmission system for the benefit of existing customers, Northwest requests all project costs should be permitted rolled-in treatment in Northwest's next rate case, as dictated by FERC's Policy Statement issued September 15, 1999, in Docket No. PL99-3-000.

Any questions regarding the application should be directed to Gary Kotter, Manager, Certificates, at (801) 584-7117 (voice) and (801) 584-7764 (fax), Northwest Pipeline Corporation, P.O. Box 58900, Salt Lake City, Utah 84158.

Any person desiring to be heard or to make any protest with reference to said Application should on or before April 28, 2000, file with the Federal Energy Regulatory Commission, 888 First Street, NE, Washington, DC 20426, a motion to intervene or a protest in accordance with the requirements of the Commission's Rules of Practice and Procedure (18 CFR 385.211 or 18 CFR 385.214) and the Regulations under the
