SUPPLEMENTARY INFORMATION:

Title: Standards for the Use or Disposal of Sewage Sludge (OMB Control No. 2040-0004; EPA ICR No. 0229.13; expiring September 30, 2001). This is a revision of a currently approved collection.

Abstract: This ICR estimates the total burden hours for sewage sludge incinerator owners/operators (SSIOOs) to comply with self implementing requirements for sewage sludge incinerators under subpart E of 40 CFR part 503, Standards for the Use or Disposal of Sewage Sludge. On February 19, 1993, EPA published the final 40 CFR part 503 Rule at 58 FR 9248. For the most part, this rule was designed to be self-implementing with the exception of certain provisions of the sewage sludge incineration subpart E of the Rule. In order to make the entire part 503 Rule self-implementing, the Agency on August 4, 1999 at 64 FR 42551 published Phase 1 Amendments to Round 1 of part 503. Included in these amendments were requirements for SSIOOs to provide the permitting authority certain information as specified in the rule that would allow the permitting authority to determine whether SSIOOs are in compliance with the numerical standards section of subpart E of the part 503 Rule. The specific sections of the part 503 Rule that were amended to effect these requirements are sections 503.43(e)(2), 503.43(e)(3) (ii), and 503.43(e)(4). The requirement for SSIOOs to perform air dispersion modeling and run performance tests to comply with Subpart E numerical standards have always been in the base part 503 Rule

and burden hours for these activities were included in the base part 503 Rule ICR. However, the base part 503 Rule required the permitting authority to specify to the SSIOOs the air dispersion model and model parameters to use as well as specify the protocol for running the incinerator performance test. The Phase 1 Amendments now require the SSIOOs to select this information from EPA-published guidance documents and to submit this information to the permitting authority. This ICR estimates the burden hours for this activity.

An agency may not conduct or sponsor, and a person is not required to respond to, a collection of information unless it displays a currently valid OMB control number. The OMB control numbers for EPA's regulations are listed in 40 CFR part 9 and 48 CFR Chapter 15. The **Federal Register** document required under 5 CFR 1320.8(d), soliciting comments on this collection of information was published on December 14, 1999 (64 FR 69755). No comments were received.

Burden Statement: The annual public reporting and recordkeeping burden for this collection of information is estimated to average five hours per response. Burden means the total time, effort, or financial resources expended by persons to generate, maintain, retain, or disclose or provide information to or for a Federal agency. This includes the time needed to review instructions; develop, acquire, install, and utilize technology and systems for the purposes of collecting, validating, and verifying information, processing and maintaining information, and disclosing and providing information; adjust the existing ways to comply with any previously applicable instructions and requirements; train personnel to be able to respond to a collection of information; search data sources; complete and review the collection of information; and transmit or otherwise disclose the information.

Respondents/Affected Entities:

Sewage sludge incinerator owners/operators.

Estimated Number of Respondents: 30.

Frequency of Response: Once per five years.

Estimated Total Annual Hour Burden: 150 hours.

Estimated Total Annualized Cost Burden (non-labor): \$0.

Notice of Required Determinations, Contract Provisions and Opportunity To Comment

The Comprehensive Environmental Response, Compensation, and Liability Act of 1980 ("CERCLA") as amended, (commonly known as "Superfund") requires completion of enforcement activities at Superfund sites in concert with other site events. EPA has entered into a contract, No. 68-S9-00-10, with SAIC for Superfund enforcement support services. These services will be provided to EPA by SAIC and its subcontractors Cotton & Co. of Alexandria, VA; Indus Corporation of Vienna, VA; Jonas & Associates, Inc. of Walnut Creek, CA; Petroleum Properties of Dixon CA; KPMG LLP of San Francisco, CA; McDonald & Associates of Capay, CA; Orswell & Kasman of Pasadena, CA; Power Partners, Inc. of San Francisco, CA; and ReVision, Inc. of Denver, CO. EPA has determined that disclosure of CBI to SAIC employees, and its subcontractors' employees, is necessary in order that SAIC may carry out the work required by that contract with EPA. The information EPA intends to disclose includes submissions made by Potentially Responsible Parties to EPA in accordance with EPA's enforcement activities at Superfund sites. The information would be disclosed to the contractor and its subcontractor for any of the following reasons: to assist with document handling, inventory, and indexing; to assist with document review and analysis; to verify completeness; and to provide technical review of submittals. The contract complies with all requirements of 40 CFR 2.301(h)(2)(ii), incorporated by reference into 40 CFR 2.310(h)(2). EPA Region 9 will require that each SAIC employee and subcontractor employee sign a written agreement that he or she: (1) Will use the information only for the purpose of carrying out the work required by the contract, (2) shall refrain from disclosing the information to anyone other than EPA without prior written approval of each affected business or of an EPA legal office, and (3) shall return to EPA all copies of the information (and any abstracts or extracts therefrom) upon request from the EPA program office, whenever the information is no longer required by SAIC and its subcontractors for performance of the work required by the contract or upon completion of the contract or subcontract.

Dated: March 30, 2000.
