

each person whose name appears on the official service list for the project. Further, if an intervenor files comments or documents with the Commission relating to the merits of an issue that may affect the responsibilities of a particular resource agency, they must also serve a copy of the document on that resource agency.

k. *Status of environmental analysis:* This application has been accepted for filing and is now ready for environmental analysis.

l. *Description of the Project:* The proposed project would consist of the following facilities: (1) The existing 20-foot-high, 482-foot-long Muskingum Lock and Dam No. 6 (including the navigational lock water retaining structure); (2) an existing 476-acre reservoir with a normal pool elevation of 640.1 feet msl; (3) an existing 20 foot by 24 foot forebay with a 19-foot-wide vertical trashrack; (4) an existing powerhouse in the basement of the mill containing two proposed generating units with a total installed capacity of 235 kW; and (5) other appurtenances. The lock and dam is owned by the Ohio Department of Natural Resources, Division of Parks and Recreation.

m. *Locations of the application:* A copy of the application is available for inspection and reproduction at the Commission's Public Reference Room, located at 888 First Street, NE, Room 2A, Washington, DC 20246, or by calling (202) 208-1371. The application may be viewed on the web at <http://www.ferc.fed.us/online/rims.htm> (call (202) 208-2222 for assistance). A copy is also available for inspection and reproduction at the address in item h above.

Development Application—Public notice of the filing of the initial development application, which has already been given, established the due date for filing competing applications or notices of intent. Under the Commission's regulations, any competing development application must be filed in response to and in compliance with public notice of the initial development application. No competing applications or notices of intent may be filed in response to this notice.

Filing and Service of Responsive Documents—The application is ready for environmental analysis at this time, and the Commission is requesting comments, reply comments, recommendations, terms and conditions, and prescriptions.

The Commission directs, pursuant to section 4.34(b) of the Regulations (see Order No. 533 issued May 8, 1991, 56 FR 23108, May 20, 1991) that all

comments, recommendations, terms and conditions and prescriptions concerning the application be filed with the Commission within 60 days from the issuance date of this notice. All reply comments must be filed with the Commission within 105 days from the date of this notice.

Anyone may obtain an extension of time for these deadlines from the Commission only upon a showing of good cause or extraordinary circumstances in accordance with 18 CFR 385.2008.

All filings must (1) bear in all capital letters the title "COMMENTS", "REPLY COMMENTS", "RECOMMENDATIONS," or "PRESCRIPTIONS;" (2) set forth in the heading the name of the applicant and the project number of the application to which the filing responds; (3) furnish the name, address, and telephone number of the person submitting the filing; and (4) otherwise comply with the requirements of 18 CFR 385.2001 through 385.2005. All comments, recommendations, terms and conditions or prescriptions must set forth their evidentiary basis and otherwise comply with the requirements of 18 CFR 4.34(b). Agencies may obtain copies of the application directly from the applicant. Any of these documents must be filed by providing the original and the number of copies required by the Commission's regulations to: The Secretary, Federal Energy Regulatory Commission, 888 First Street, NE, Washington, DC 20426. An additional copy must be sent to Director, Division of Project Review, Office of Hydropower Licensing, Federal Energy Regulatory Commission, at the above address. Each filing must be accompanied by proof of service on all persons listed on the service list prepared by the Commission in this proceeding, in accordance with 18 CFR 4.34(b), and 385.2010.

Linwood A. Watson, Jr.,

Acting Secretary.

ENVIRONMENTAL PROTECTION AGENCY

[FRL-6579-1]

Agency Information Collection Activities: Proposed Collection; Comment Request; National Oil and Hazardous Substances Pollution Contingency Plan, Subpart J

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice.

SUMMARY: In compliance with the Paperwork Reduction Act (44 U.S.C. 3501 *et seq.*), this document announces that EPA is planning to submit the following continuing Information Collection Request (ICR) to the Office of Management and Budget (OMB):

National Oil and Hazardous Substances Pollution Contingency Plan—Subpart J, EPA ICR 1664.04, OMB Control Number 2050-0141, expiration date—8/31/00. Before submitting the ICR to OMB for review and approval, EPA is soliciting comments on specific aspects of the proposed information collection as described below.

DATES: Comments must be submitted on or before May 17, 2000.

ADDRESSES: Interested persons may obtain a copy of the ICR without charge by contacting U.S. Environmental Protection Agency, 5203G, 1200 Pennsylvania Avenue NW, Washington DC 20460. Materials relevant to this ICR may be inspected from 9 a.m. to 4 p.m., Monday through Friday, by visiting the Public Docket, located at 1235 Jefferson-Davis Highway (ground floor), Arlington, Virginia 22202. The docket number for this notice is SPSUBJ. The telephone number for the Public Docket is (703) 603-9232.

FOR FURTHER INFORMATION CONTACT: William "Nick" Nichols, (703) 603-9918, Facsimile Number (703) 603-9116, e-mail: nichols.nick@epa.gov.

SUPPLEMENTARY INFORMATION:

Affected entities: Entities potentially affected by this action are those which manufacture, sell, distribute and/or use oil spill dispersants, other chemicals, and other spill mitigating devices and substances that may be used in carrying out the NCP, as listed in 40 CFR 300.900 on land or waters of the United States.

Title: National Oil and Hazardous Substances Pollution Contingency Plan, Subpart J (NCP)

(OMB Control No. 2050-0141; EPA ICR No.1664.04), expiring 8/31/00.

Abstract: Subpart J of the NCP allows and regulates the use of chemical and biological oil spill cleanup and control agents. The information collected is supplied by the manufacturer of such products. This information and data are then analyzed by EPA to determine the appropriateness, and under which category, the product may be listed on the NCP Product Schedule. This product data is critical for EPA to obtain in order to assure that effectiveness and toxicity data for these products is available to the oil spill community in order to use them legally and effectively. Responses to the collection

of information are mandatory if EPA determines that the products specifications require its listing under subpart J (40 CFR 300.5a Definitions). However, manufacturers volunteer to have their product analyzed. The authority to review and use a product is 40 CFR 300.910. Confidentiality of data, ingredients, and other proprietary information for the products is maintained by EPA. Manufacturers may use any certified lab in the U.S. to test their products effectiveness and toxicity. The cost of such test range from \$1,000 to \$5,000 per test. The process to have a product listed takes at least 30 days, but no longer than 60 days, depending on the accuracy and completeness of the product information package provided to EPA by the manufacturer. Due to the technical and graphical data required to be listed, electronic submissions are not accepted.

An agency may not conduct or sponsor, and a person is not required to respond to, a collection of information unless it displays a currently valid OMB control number. The OMB control numbers for EPA's regulations are listed in 40 CFR part 9 and 48 CFR Chapter 15.

The EPA would like to solicit comments to:

(i) Evaluate whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including whether the information will have practical utility;

(ii) Evaluate the accuracy of the agency's estimate of the burden of the proposed collection of information, including the validity of the methodology and assumptions used;

(iii) Enhance the quality, utility, and clarity of the information to be collected; and

(iv) Minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated electronic, mechanical, or other technological collection techniques or other forms of information technology, e.g., permitting electronic submission of responses.

Burden Statement: Estimated projected cost and hour burden for listing a product are between 14 and 40 hours at a cost ranging from under \$4,000 to \$10,000 depending on the what the lab charges the manufacture to test the product. EPA estimates that an average of 14 product applications are submitted each year at a cost of \$83,000 (\$6,000 average). Additional data requirements include changes to: manufacturer's address, name of product, distributors, product specifications, and any other changes to

the product. Changes to the product's composition may require further testing and data submission to EPA. Otherwise the cost to supply this information to EPA is a one-time cost. EPA does not charge any fees to maintain records for a product nor are there any cost to update the product's file other than those mentioned above. There are no required capital, start up cost or fees required by EPA to have a product listed.

Burden means the total time, effort, or financial resources expended by persons to generate, maintain, retain, or disclose or provide information to or for a Federal agency. This includes the time needed to review instructions; develop, acquire, install, and utilize technology and systems for the purposes of collecting, validating, and verifying information, processing and maintaining information, and disclosing and providing information; adjust the existing ways to comply with any previously applicable instructions and requirements; train personnel to be able to respond to a collection of information; search data sources; complete and review the collection of information; and transmit or otherwise disclose the information.

Dated: April 5, 2000.

Stephen D. Luftig,

Director, Office of Emergency and Remedial Response.

BILLING CODE 6560-50-P

ENVIRONMENTAL PROTECTION AGENCY

[FRL-6579-7]

Agency Information Collection Activities: Submission for OMB Review; Comment Request NSPS, Flexible Vinyl and Urethane Coating and Printing

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice.

SUMMARY: In compliance with the Paperwork Reduction Act (44 U.S.C. 3501 *et seq.*), this document announces that the following Information Collection Request (ICR) has been forwarded to the Office of Management and Budget (OMB) for review and approval: NSPS Subpart FFF, New Source Performance Standards for Flexible Vinyl and Urethane Coating and Printing, OMB Control Number 2060-0073 which expires on June 30, 2000. The ICR describes the nature of the information collection and its

expected burden and cost; where appropriate, it includes the actual data collection instrument.

DATES: Comments must be submitted on or before May 17, 2000.

FOR FURTHER INFORMATION CONTACT: For a copy of the ICR contact Sandy Farmer at EPA by phone at (202) 260-2740, by E-Mail at Farmer.Sandy@epamail.epa.gov or download off the Internet at <http://www.epa.gov/icr> and refer to EPA ICR No.1157.06. For technical questions about the ICR contact Ginger Gotliffe at (202) 564-7072.

SUPPLEMENTARY INFORMATION:

Title: NSPS Subpart FFF, New Source Performance Standards for Flexible Vinyl and Urethane Coating and Printing (OMB Control No. 2060-0073 ; EPA ICR No.1157.06) expiring 06/30/00. This is a request for extension of a currently approved collection.

Abstract: The New Source Performance Standards (NSPS) for Flexible Vinyl and Urethane Coating and Printing were promulgated on June 29, 1984 (49 FR 26892). The effective date was January 18, 1983.

These standards of performance for this category of new stationary sources of hazardous air pollutants are required by Section 111 of the Clean Air Act. Facilities may meet the standards by using materials with a low concentration of Volatile Organic compounds (VOCs), or by installing emission control devices. The information that is required to be submitted to the Agency or kept at the facility is needed to insure compliance with the regulation. These include initial one time notifications, performance tests plans and reports and records of maintenance and shutdown, startup, and malfunctions. For facilities that install CMS there are performance tests, and maintenance reports. Excess emissions reports are submitted semiannually. Responses to the collection of information are mandatory (NSPS 60 Subpart FFF).

An agency may not conduct or sponsor, and a person is not required to respond to, a collection of information unless it displays a currently valid OMB control number. The OMB control numbers for EPA's regulations are listed in 40 CFR part 9 and 48 CFR Chapter 15. The **Federal Register** document required under 5 CFR 1320.8(d), soliciting comments on this collection of information was published on 10/29/99 (64 FR 58396); no comments were received.

Burden Statement: The annual public reporting and recordkeeping burden for this collection of information is
