Notice Inviting Applications for Enhancements of Welfare Outcomes Research for Fiscal Year 2000

AGENCY: The Office of the Assistant Secretary for Planning and Evaluation, Department of Health and Human Services.

ACTION: Announcement of the availability of funds and request for applications from States and large counties that propose to enhance current research and monitoring efforts regarding key outcomes related to welfare reform.

SUMMARY: The Office of the Assistant Secretary for Planning and Evaluation (ASPE) announces the availability of funds and invites States and large counties to propose enhancements to existing welfare outcome data collection efforts. ASPE anticipates that approximately four to six States or large counties will receive funding. ASPE is interested in funding only those applicants who propose enhancements that fill knowledge gaps that can not be filled by their existing data collection

efforts. These knowledge gaps could pertain to populations who have had direct contact with the welfare system as well as other low-income populations that may be indirectly affected by welfare reform. Enhancements may focus on issues such as sample size, data collection period, content and depth of data, as well as validity and representativeness of data. Eligible applicants may include both States and counties that have previously received grants from ASPE to study welfare outcomes, as well as those who have not received funding from ASPE previously.

Part I

Legislative Authority

This announcement is authorized by Section 1110 of the Social Security Act (42 U.S.C. 1310) and awards will be made from funds appropriated under the Department of Health and Human Services Appropriations Act, 2000, by section 1000(a)(4) of the Consolidated Appropriations Act, 2000 (Public Law 106-113).

Eligible Applicants

For studies of populations having direct contact with the TANF system, ASPE will consider applications only from State agencies that administer TANF programs, and county agencies that administer TANF programs and have total populations greater than 500,000. Additionally, for studies of welfare related outcomes among the low-income population more generally, other State agencies may apply and are encouraged to coordinate and/or consult with the TANF administrative agencies in preparing their proposal and undertaking their research. Consortia of States and counties are also encouraged to apply, as long as their combined total populations exceed 500,000 and a single agency is identified as the lead to handle grant funds and sub-granting. Public or private nonprofit organizations, including universities and other institutions of higher education, may collaborate with States in submitting an application, but the principal grantee will be the State or county. Private for-profit organizations may also apply jointly with States, with the recognition that grant funds may not be paid as profit to any recipient of a grant or subgrant. Eligible applications must build on existing survey data collection or administrative data linking capacity around welfare related outcomes and must propose significant enhancements beyond current efforts. Eligible applicants may include both States and counties that have previously received grants from ASPE to study welfare outcomes, as well as those who have not received funding from ASPE previously.

The Code of Federal Regulations, Title 45, Part 92 defines a State as: "Any of the several States of the United States, the District of Columbia, the Commonwealth of Puerto Rico, any territory or possession of the United States, or any agency or instrumentality of a State exclusive of local governments. The term does not include
