**Market for Satellite Communications
and the Role of Intergovernmental
Satellite Organizations**

AGENCY: National Telecommunications
and Information Administration,
Commerce.

ACTION: Notice, request for comments.

SUMMARY: The Department of Commerce
requests comments regarding the
advantages accorded signatories of the
International Telecommunications
Satellite Organization (INTELSAT), in
terms of immunities, market access, or
otherwise, in the countries or regions
served by INTELSAT, the reason for
such advantages, and an assessment of
progress toward fulfilling a pro-
competitive privatization of that
organization.¹ The International Anti-
Bribery and Fair Competition Act of
1998, Pub. L. No. 105-366, implements
the Organization for Economic
Cooperation and Development (OECD)
Convention on Combating Bribery of
Foreign Public Officials in International
Business Transactions (the OECD
Convention). In that legislation, the U.S.
Congress imposed certain reporting
requirements for the Department of

¹ The Department notes that Inmarsat privatized
on April 15, 1999 and therefore this section of the
RFC is limited to INTELSAT.

Commerce to begin in 1999 and to
continue annually for each of the next
five years. The Secretary of Commerce
issued the first report in July 1999. See
Addressing the Challenges of
International Bribery and Fair
Competition—The First Annual Report
Under Section 6 of the International
Anti-Bribery and Fair Competition Act
of 1998, July 1999. The report may be
viewed at [http://www.ita.doc.gov/legal/
master.html](http://www.ita.doc.gov/legal/master.html).

The House report on the legislation
expresses an expectation for extensive
fact-findings on the nature of the market
for satellite communications and, in
particular, the role of the then
intergovernmental satellite
organizations (ISOs) INTELSAT and
Inmarsat. The report required by the
legislation monitors the implementation
and enforcement of other nations'
commitments under the OECD
Convention and tracks the reduction of
privileges and immunities for the ISOs.
This Request for Comments (RFC) will
assist the Secretary of Commerce in
responding to those reporting
requirements.

Moreover, on March 17, 2000, the
President signed into law the Open-
Market Reorganization for the
Betterment of International
Telecommunications (ORBIT) Act, Pub.
L. No. 106-180. This legislation seeks to
“promote a fully competitive global
market for satellite communications
services for the benefit of consumers
and providers of satellite services and
equipment by fully privatizing the
intergovernmental satellite
organizations, INTELSAT and
Inmarsat.” *Id.* at sec. 2. In addition, the
ORBIT Act requires the President to
provide an annual report to Congress on
the progress of privatization in relation
to the objectives, purposes, and
provisions of the Act, including the
“(v)iews of the industry and consumers
on privatization” and the “[i]mpact
privatization has had on United States
industry, United States jobs, and United
States industry’s access to the global
marketplace.” *See id.* at sec. 646(b)(3)
and (4). By this public notice and RFC,
we are also soliciting the views of the
industry and consumers on such
privatization.
