Approval and Promulgation of State Plans for Designated Facilities and Pollutants: Connecticut; Plan for Controlling MWC Emissions From Existing MWC Plants

AGENCY: Environmental Protection Agency (EPA).

ACTION: Proposed rule.

SUMMARY: The Environmental Protection Agency (EPA) proposes to approve the sections 111(d)/129 State Plan submitted by the Connecticut Department of Environmental Protection (DEP) on October 1, 1999. This State Plan is for carrying out and enforcing provisions that are at least as protective as the Emissions Guidelines (EGs) applicable to existing Municipal Waste Combustors (MWCs) units with capacity to combust more than 250 tons/day of municipal solid waste (MSW).

The Connecticut DEP submitted the Plan to satisfy certain Federal Clean Air

Act requirements. In the Final Rules section of the **Federal Register**, EPA is approving the Connecticut State Plan submittal as a direct final rule without a prior proposal. EPA is doing this because the Agency views this action as a noncontroversial submittal and anticipates that it will not receive any significant, material, and adverse comments. A detailed rationale for the approval is set forth in the direct final rule elsewhere in the **Federal Register**. If EPA does not receive any significant, material, and adverse comments to this rule, then the approval will become final without further proceedings. If EPA receives adverse comments, the direct final rule will be withdrawn and EPA will address all public comments received in a subsequent final rule based on this proposed rule. EPA will not begin a second comment period.

DATES: EPA must receive comments in writing by May 22, 2000.

ADDRESSES: You should address your written comments to: Mr. John Courcier, Acting Manager, Air Permits Unit, Office of Ecosystem Protection (CAP), U.S. EPA, One Congress Street, Suite 1100, Boston, Massachusetts 02114-2023.

Approval and Promulgation of Hospital/Medical/Infectious Waste Incinerators State Plan for Designated Facilities and Pollutants: Idaho

AGENCY: Environmental Protection Agency (EPA).

ACTION: Proposed rule.

SUMMARY: The EPA proposes to approve the State of Idaho's section 111(d) State Plan for controlling emissions from existing Hospital/Medical/Infectious Waste Incinerators (HMIWI). The plan was submitted on December 16, 1999, to fulfill the requirements of sections 111(d) and 129 of the Clean Air Act. The State Plan adopts and implements the Emissions Guidelines applicable to existing HMIWIs, and establishes emission limits and controls for sources constructed on or before June 20, 1996.

In the final rules section of this **Federal Register**, the EPA is approving Idaho's State Plan as a direct final rule without prior proposal because the Agency views this as a noncontroversial action and anticipates no relevant adverse comments. A detailed rationale for the approval is set forth in the direct final rule. If no relevant adverse comments are received in response to this action, EPA will not take action on this proposed rule. If the EPA receives relevant adverse comments, EPA will withdraw the direct final rule and it will not take effect. EPA will then address all public comments received in a subsequent final rule based on this proposed rule. The EPA will not institute a second comment period on this action.

DATES: Written comments must be received by May 22, 2000.

ADDRESSES: Written comments should be addressed to: Catherine Woo, US EPA, Region X, Office of Air Quality (OAQ-107), 1200 Sixth Avenue, Seattle, WA 98101.
