9. If and to the extent that Rule 6e-2 and Rule 6e-3(T) under the 1940 Act are amended, or proposed Rule 6e-3 under the 1940 Act is adopted, to provide exemptive relief from any provision of the 1940 Act, or the rules promulgated thereunder, with respect to mixed or shared funding, on terms and conditions materially different from any exemptions granted in the order requested in the application, then the Trusts and/or Participating Insurance Companies, as appropriate, shall take such steps as may be necessary to comply with Rules 6e-2 and 6e-3(T), or Rule 6e-3, as such rules are applicable.

II. Self-Regulatory Organization's Statement of the Purpose of, and Statutory Basis for, the Proposed Rule Change

In its filing with the Commission, the CHX included statements concerning the purpose of, and basis for, the proposed rule change and discussed any comments it received regarding the proposed rule change. The text of these statements may be examined at the places specified in Item IV below. The CHX has prepared summaries, set forth in Sections A, B and C below, of the most significant aspects of such statements.

A. Self-Regulatory Organization's Statement of the Purpose of, and Statutory Basis for, the Proposed Rule Change

1. Purpose

The Exchange proposes to amend Article XX, Rule 37 of the Exchange's rules to allow the Exchange's automatic price improvement programs to begin operating when CHX trading begins.³ The Exchange proposes that this change take effect on May 10, 2000.⁴

Under the Exchange's current rules, each of the Exchange's automatic price improvement programs, SuperMAX, SuperMAX Plus, Enhanced SuperMAX and Derivative SuperMAX, become available to specialists at 8:45 a.m., Central Time, fifteen minutes after the Exchange begins trading. The Exchange believes that the proposed rule change, which would permit automated price improvement during the first fifteen minutes of trading, will enhance CHX specialists' efficiency by automating a previously-manual process. This change will permit the CHX to better compete with other market centers at a critical juncture in the trading day by giving its specialists the opportunity to provide price improvement to a greater number of investors. Further, the Exchange represents that the 8:45 a.m., Central Time was originally chosen as the starting time for the price improvement programs to allow the Exchange to gain experience with the operation of such programs before extending their application to the first fifteen minutes of Exchange trading, which are ordinarily quite busy. Now that the Exchange has gained experience, and seen the benefits of the continuing evolution of technology, the Exchange is confident that the automatic price improvement programs can successfully operate during the opening of Exchange trading.

2. Statutory Basis

The proposed rule is consistent with the requirements of the Act and the rules and regulations thereunder that are applicable to a national securities exchange, and, in particular, with the requirements of section 6(b).⁵ In particular, the proposed rule is consistent with section 6(b)(5) of the Act⁶ in that it is designed to promote just and

³ Preopening orders, however, would not be entitled to participate in these automated price improvement programs.

equitable principles of trade, to remove impediments to and to perfect the mechanism of a free and open market and a national market system, and, in general, to protect investors and the public interest.

B. Self-Regulatory Organization's Statement of Burden on Competition

The Exchange does not believe that the proposed rule change will impose any inappropriate burden on competition.

C. Self-Regulatory Organization's Statement on Comments Regarding the Proposed Rule Change Received From Members, Participants or Others

No written comments were either solicited or received.

III. Date of Effectiveness of the Proposed Rule Change and Timing for Commission Action

Because the foregoing proposed rule change should increase the CHX's ability to provide customers with price improvement, and to compete with other market centers, and: (1) Does not significantly affected the protection of investors or the public interest; (2) does not impose any significant burden on competition; and (3) does not become operative for 30 days from April 10, 2000, the date on which it was filed, and the Exchange provided the Commission with written notice of its intent to file the proposed rule change at least five business days prior to the filing date, it has become effective pursuant to Section 19(b)(3)(A) of the Act⁷ and Rule 19b-4(f)(6)⁸ thereunder. At any time within 60 days of the filing of the proposed rule change, the Commission may summarily abrogate such rule change if it appears to the Committee that such action is necessary or appropriate in the public interest, for the protection of investor, or otherwise in the furtherance of the purposes of the Act.⁹

IV. Solicitation of Comments

Interested persons are invited to submit written data, views and arguments concerning the foregoing, including whether the proposed rule change is consistent with the Act. Persons making written submissions should file six copies thereof with the Secretary, Securities and Exchange Commission, 450 Fifth Street, NW., Washington DC 20549-0609. Copies of the submission, all subsequent amendments, all written statements with respect to the proposed rule change that are filed with the Commission, and all written communications relating to the proposed rule change between the Commission and any person, other than those that maybe withheld from the public in accordance with the provisions of 5 U.S.C. 552, will be available for inspection and copying in the Commission's Public Reference Room in Washington, DC. Copies of the filing will also be available for inspection and copying at the principal office of the Exchange. All submissions should
