

control numbers for home market sales as used in the sales-below-cost test.

*The Department's Position:*

We agree with Nan Ya that the control numbers assigned to home market sales in preparation for the sales-below-cost test should have been revised based on information found at verification with respect to fiber type. To correct this error, we have constructed new control numbers on home market sales for purposes of matching these sales to their respective costs of production. (See the Calculation Memorandum.)

*Other Comments on the Calculation of Constructed Value*

We received other comments pertaining to the calculation of constructed value. We note that there were no comparisons to constructed value in either the final determination

or this amended final determination. In addition, we find that our calculations contained one additional ministerial error which was not identified by any party to this proceeding. Specifically, we erroneously included inventory carrying costs when calculating constructed value. The comments from interested parties and a discussion of the additional error we found are addressed in the Calculation Memorandum. Changes to the computer program, where appropriate, have been made in the event this proceeding results in an antidumping duty order and the computer program from this amended final determination gets used again in a future segment of this proceeding.

**Suspension of Liquidation**

In accordance with section 735(c)(1)(B) of the Act, we are directing

the Customs Service ("Customs") to suspend liquidation of all imports of the subject merchandise from Taiwan, produced and exported by Nan Ya that are entered, or withdrawn from warehouse, for consumption on or after the date of publication of this notice in the **Federal Register**. Customs will continue to suspend liquidation on all imports of the subject merchandise from Taiwan produced and exported by Far Eastern Textile, Ltd. and all other producers/exporters. Customs shall require a cash deposit or the posting of a bond equal to the weighted-average amount by which normal value exceeds the export price as indicated in the chart below. These suspension of liquidation instructions will remain in effect until further notice.

The weighted-average dumping margins are as follows:

Exporter/manufacturer	Weighted-average margin percentage	Critical circumstances
FETL .....	9.51	No.
Nan Ya .....	5.77	No.
All Others .....	7.53	No.

The rate for all other producers and exporters applies to all entries of the subject merchandise except for entries from exporters that are identified individually above.

**ITC Notification**

In accordance with section 735(d) of the Act, we have notified the International Trade Commission ("ITC") of our amended final determination.

This determination is issued and published in accordance with sections 735(d) and 777(i)(1) of the Act.

Dated: April 20, 2000.

#### SUPPLEMENTARY INFORMATION:

##### I. Abstract

The American Fisheries Act (AFA), signed into law in October 1998, established a new allocation program for the pollock fishery of the Bering Sea and Aleutian Islands Management Area (BSAI). NOAA issued an emergency interim rule to give immediate effect to all AFA-mandated management measures. Under the AFA, only vessels and processors that meet specific qualifying criteria are eligible to fish for and process pollock in the BSAI. The BSAI pollock quota is suballocated to groups of vessel owners who form fishing vessel cooperatives under the AFA. NOAA administers new AFA fishing, processing, and cooperative permits for the BSAI pollock fishery through application form requirements that allow NOAA to identify and permit the vessels and processors that are eligible to participate in the BSAI pollock fishery. Owners of vessels and processors must submit evidence of their qualification to participate.
