

State or local agency which has been delegated the OCS program in accordance with 40 CFR part 55 of this chapter) pursuant to the part 70 or part 71 program which is effective in the corresponding onshore area.

Investigation of the OCS ICR indicates currently there are only two OCS sources which fall under the jurisdiction of the Federal program.

There are approximately 95 sources in Indian Country that require part 71 permits.

The EPA will also establish a part 71 program for a State when interim approval of a State program expires, if corrective program provisions have not been adopted and submitted to EPA in time for full approval. Since the suspension of the Federal program requirement runs out with the expiration of interim approval, the requirement that EPA promulgate a Federal program is effective immediately upon that expiration.

The EPA has the authority to establish a partial part 71 program in limited geographical areas of a state if EPA has approved a part 70 program (or combination of part 70 programs) for the remaining areas of the State. The EPA will promulgate a part 71 program for a permitting authority if EPA finds that a permitting authority is not adequately administering or enforcing its approved program and it fails to correct the deficiencies that precipitated EPA's finding.

The EPA may use part 71 in its entirety or any portion of the regulations, as needed. Similarly, EPA may use only portions of the regulations to correct and issue a State permit without, for example, requiring an entirely new application. Section 71.4(f) also authorizes EPA to exercise its discretion in designing a part 71 program. The EPA may promulgate a part 71 program based on the national template described in part 71 or may modify the national template by adopting appropriate portions of a State's program as part of the Federal program for that State, provided the resulting program is consistent with the requirements of title V.

An agency may not conduct or sponsor, and a person is not required to respond to, a collection of information unless it displays a currently valid OMB control number. The OMB control numbers for EPA's regulations are listed in 40 CFR part 9 and 48 CFR Chapter 15. The EPA would like to solicit comments to:

(i) Evaluate whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including

whether the information will have practical utility;

(ii) Evaluate the accuracy of the agency's estimate of the burden of the proposed collection of information, including the validity of the methodology and assumptions used;

(iii) Enhance the quality, utility, and clarity of the information to be collected; and

(iv) Minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated electronic, mechanical, or other technological collection techniques or other forms of information technology, e.g., permitting electronic submission of responses.

Burden Statement: The projected cost for implementing the part 71 program for the 3 years from June 1, 2000 until May 31, 2003 is approximately \$18 million in annualized direct costs to sources. These costs represent the direct administrative costs for 2,059 major sources, for a cost of \$8,803 per source. The Agency expects Federal costs will be \$19.8 million (\$9,622 per source). The Agency anticipates administering a part 71 program for approximately 95 sources in Indian Country and the Outer Continental Shelf. The expected scope of the part 71 program will result in an anticipated average per ton of emissions cost of \$26.85 in 1994 dollars. For a permit program which is fully contracted by the Agency, the expected Federal cost would be \$47.1 million (\$22,901 per source), or \$63.89 per ton in 1994 dollars. These costs provide an upper and lower bound to the expected cost of the part 71 regulation. The Agency anticipates that these burden estimates will change as the number of State and Local operating permitting programs to be administered by the Agency as Federal programs changes over time. These changes to the burden estimate will be reflected in the ICR document. Burden means the total time, effort, or financial resources expended by persons to generate, maintain, retain, or disclose or provide information to or for a Federal agency. This includes the time needed to review instructions; develop, acquire, install, and utilize technology and systems for the purposes of collecting, validating, and verifying information, processing and maintaining information, and disclosing and providing information; adjust the existing ways to comply with any previously applicable instructions and requirements; train personnel to be able to respond to a collection of information; search data sources; complete and review the collection of information; and transmit or otherwise disclose the information.

During the period of this ICR, EPA (in addition to general administration of the program) primarily will be issuing permits required by the program, revising permits that have already been issued, and reviewing semi-annual compliance monitoring reports for issued permits. Sources in the part 71 program primarily will be interacting with EPA on permit issuance (for those that have not been issued), preparing semi-annual compliance monitoring reports, revising their permits as needed, carrying out periodic monitoring that was created as a result of the program, and preparing applications for permit renewal as necessary.

Dated: April 20, 2000.

Robert G. Kellam,

Acting Director, Information Transfer and Program Integration Division.

BILLING CODE 6560-50-P

ENVIRONMENTAL PROTECTION AGENCY

[FRL-6587-3]

Agency Information Collection Activities: Proposed Collection; Comment Request; Conflict of Interest

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice.

SUMMARY: In compliance with the Paperwork Reduction Act (44 U.S.C. 3501 *et seq.*), this document announces that EPA is planning to submit the following continuing Information Collection Request (ICR) to the Office of Management and Budget (OMB): Conflict of Interest, EPA ICR No. 1550.05 and OMB Control No. 2030-0023, expires 5/31/00. Before submitting the ICR to OMB for review and approval, EPA is soliciting comments on specific aspects of the proposed information collection as described below.

DATES: Comments must be submitted on or before June 30, 2000.

ADDRESSES: 1200 Pennsylvania Ave. NW, Ariel Rios Building, Attn 3802R, Washington, DC 20460.

FOR FURTHER INFORMATION CONTACT: Leigh Pomponio, (202) 564-4364, e-mail: pomponio.leigh@epamail.epa.gov. A hard copy of the ICR may be obtained by contacting the named individual.

SUPPLEMENTARY INFORMATION:

Affected entities: Entities potentially affected by this action are those which are awarded contracts supporting the Superfund program.

Title: Conflict of Interest OMB Control No. 2030-0023; EPA ICR No. 1550.05 expiring 5/31/00.

Abstract: Contractors performing at Superfund sites will be required to disclose business relationships and corporate affiliations to determine whether EPA's interests are jeopardized by such relationships. Because EPA has the dual responsibility of cleanup and enforcement and because its contractors are often involved in both activities, it is imperative that contractors are free from conflicts of interest so as not to prejudice response and enforcement actions. Contractors will be required to maintain a database of business relationships and report information to EPA on either an annual basis or when each work assignment is issued. Responses to the collection are required prior to award of a contract.

Submissions will be protected from public release as Confidential Business Information in accordance with 40 CFR 2.201. An agency may not conduct or sponsor, and a person is not required to respond to, a collection of information unless it displays a currently valid OMB control number. The OMB control numbers for EPA's regulations are listed in 40 CFR part 9 and 48 CFR Chapter 15.

The EPA would like to solicit comments to:

(i) evaluate whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including whether the information will have practical utility;

(ii) evaluate the accuracy of the agency's estimate of the burden of the proposed collection of information, including the validity of the methodology and assumptions used;

(iii) enhance the quality, utility, and clarity of the information to be collected; and

(iv) minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated electronic, mechanical, or other technological collection techniques or other forms of information technology, e.g., permitting electronic submission of responses.

Burden Statement: Public burden is estimated to average 1969 hours per respondents. Total number of respondents covered by this collection is 165. Therefore, total burden hours are estimated at 324,885. No capital or start up costs are expected. Burden means the total time, effort, or financial resources expended by persons to generate, maintain, retain, or disclose or provide information to or for a Federal agency. This includes the time needed

to review instructions; develop, acquire, in-install, and utilize technology and systems for the purposes of collecting, validating, and verifying information, processing and maintaining information, and disclosing and providing information; adjust the existing ways to comply with any previously applicable instructions and requirements; train personnel to be able to respond to a collection of information; search data sources; complete and review the collection of information; and transmit or otherwise disclose the information.

Dated: April 24, 2000.

Thomas D. McEntegart,

Manager, Policy Service Center.

ENVIRONMENTAL PROTECTION AGENCY

[FRL-6587-4]

Agency Information Collection Activities: Proposed Collections; Comment Request; Information Requirements for Importation of Nonconforming Vehicles; Information Requirements for Importation of Nonconforming Nonroad Compression Ignition (CI) and Small Spark Ignition (SI) Engines

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice.

SUMMARY: In compliance with the Paperwork Reduction Act (44 U.S.C. 3501 *et seq.*), this notice announces that EPA is planning to submit the following proposed and/or continuing Information Collection Requests (ICR) to the Office of Management and Budget (OMB): Information Requirements for Importation of Nonconforming Vehicles, OMB Control Number 2060-0095; Information Requirements for Nonconforming Nonroad Compression Ignition (CI) and Small Spark Ignition (SI) Engines, OMB Control Number 2060-0294. Before submitting the ICRs to OMB for review and approval, EPA is soliciting comments on specific aspects of the proposed information collection as described below.

DATES: Comments must be submitted on or before June 30, 2000.

ADDRESSES: Interested persons may obtain a copy of the ICRs without charge by contacting: Certification and Compliance Division, 1200 Pennsylvania Avenue, NW (6405J), Washington, DC 20460, Attn: Imports.

FOR FURTHER INFORMATION CONTACT: Mr. Leonard Lazarus, telephone (202) 564-9240, telefax (202) 565-2057.

SUPPLEMENTARY INFORMATION: *Affected entities:* Entities potentially affected by this action include individuals and businesses (including Independent Commercial Importers) importing on and off-road motor vehicles, motor vehicle engines, or nonroad engines, including nonroad engines incorporated into nonroad equipment or nonroad vehicles.

Title: Information Requirements for Importation of Nonconforming Vehicles, OMB #2060-0095, expiration date 8/31/00; Information Requirements for Nonconforming Nonroad Compression Ignition (CI) and Small Spark Ignition (SI) Engines, OMB #2060-0294, expiration date 8/31/00.

Abstract: Individuals and businesses importing on and off-road motor vehicles, motor vehicle engines, or nonroad engines, including nonroad engines incorporated into nonroad equipment or nonroad vehicles report and keep records of vehicle importations, request prior approval for vehicle importations, or request final admission for vehicles conditionally imported into the U.S. The collection of this information is mandatory in order to ensure compliance of nonconforming vehicles with Federal emissions requirements. Joint EPA and Customs regulations at 40 CFR 85.1501 *et seq.*, 89.601 *et seq.*, 90.601 *et seq.*, and 19 CFR 12.73 and 12.74 promulgated under the authority of Clean Air Act Sections 203 and 208 give authority for the collection of information. This authority was extended to nonroad engines under section 213(d). The information is used by program personnel to ensure that all Federal emission requirements concerning imported nonconforming motor vehicles and nonroad engines are met. Any information submitted to the Agency for which a claim of confidentiality is made is safeguarded according to policies set forth in Title 40, Chapter 1, Part 2, Subpart B—Confidentiality of Business Information (see CFR 2), and the public is not permitted access to information containing personal or organizational identifiers. An agency may not conduct or sponsor, and a person is not required to respond to, a collection of information unless it displays a currently valid OMB control number. The OMB control numbers for EPA's regulations are listed in 40 CFR part 9 and 48 CFR Chapter 15.

The EPA would like to solicit comments to:

(i) evaluate whether the proposed collection of information is necessary
