

Total Annual Burden: 3 Hours.
Total annualized capital/startup costs: \$0.

Total annual costs (operating/maintaining systems or purchasing services): \$0

Description: Generally, the regulation provides guidance for fiduciaries, participants, and beneficiaries of employee benefit plans on the requirements for transmission of employee contributions withheld from wages. Specifically, this regulation describes when certain monies, which a participant pays to or has withheld by an employer for contribution to an employee benefit plan, are "plan assets" for purposes of title I of the Employee Retirement Income Security Act of 1974 (ERISA) and the related prohibited transaction provisions of the Internal Revenue Code. The Regulation also establishes a procedure (for pension plans only) whereby an employer may obtain an additional 10 business days to comply with the contribution time limits. This ICR covers the notification, bonding, and certification requirements for obtaining an extension.

Type of Review: Revision of a currently approved collection.

Agency: Pension and Welfare Benefits Administration.

Title: Prohibited Transaction Class Exemption 76-1 and Prohibited Transaction Class Exemption 77-10.

OMB Number: 1210-0058.

Recordkeeping: Six years.

Affected Public: Individuals or households; business or other for-profit; not-for-profit institutions.

Frequency: On occasion.

Number of Respondents: 3,187.

Total Annual Responses: 3,187.

Total Annual Burden: 797 Hours.

Total annualized capital/startup costs: \$0.

Total annual costs (operating/maintaining systems or purchasing services): \$0.

Description: Prohibited Transaction Class Exemption (PTCE) 76-1 provides an exemption, under specified conditions, from certain of ERISA's prohibited transaction provisions under section 406(a) for various transactions involving multi-employer or multiple employer plans. Prohibited Transaction Class Exemption (PTCE) 77-10 complements Part C of PTCE 76-1 in that it provides an exemption under certain conditions from section 406(b)(2) of ERISA in connection with such transactions. PTCE 76-1, Part C permits plans to lease office space and provide administrative services or sell goods to a participating employer or union or to another plan. Section

406(b)(2) prohibits plan fiduciaries, such as plan trustees, from acting in an individual or any other capacity in a transaction involving the plan on behalf of a party whose interests are adverse to those of the plan or its participants or beneficiaries.

The Department has proposed combining the information collection provisions of both exemptions under one OMB control number (OMB Number 1210-0058) by incorporating the information collection provisions of PTCE 77-10 (OMB Number 1210-0081) into the revision information collection under OMB Number 1210-0058 and allowing the control number for PTCE 77-10 to expire. The Department believes the public will benefit by having the opportunity to comment on both information collection provisions at the same time because PTCE 77-10 is not likely to be used without its counterpart, PTCE 76-1.

Type of Review: Extension of a currently approved collection.

Agency: Occupational Safety and Health Administration (OSHA).

Title: 1,2-dibromo-3-chloropropane (DBCP) Standard.

OMB Number: 1281-0101.

Frequency: On occasion.

Affected Public: Business or other for-profit; Federal Government; State, Local or Tribal Government.

Number of Respondents: 0.

Total Annual Burden: 1 Hour.

Total annualized capital/startup costs: \$0.

Total annual costs (operating/maintaining systems or purchasing services): \$0.

Description: The information collection requirements in the DBCP Standard provide protection for employees from the adverse health effects associated with exposure to DBCP. In this regard, the DBCP Standard requires employers to monitor employees' exposure to DBCP, monitor employee health, and provide employees with information about their exposures and the health effects of exposure to DBCP.

Agency: Mine Safety and Health Administration (MSHA).

Title: Main Fan Maintenance Record.

Type of Review: Extension.

OMB Number: 1219-0012.

Frequency: On occasion.

Affected Public: Business or other for-profit.

Number of Respondents: 21.

Total Annual Responses: 7.

Estimated Time Per Respondent: 1.57 Hours.

Total Annual Burden: 11 Hours.

Total Annualized capital/startup costs: \$0.

Total annual costs (operating/maintaining systems or purchasing services): \$0.

Description: Mine Operators are required to keep main fans maintained according to either manufacturers, recommendations or a written periodic schedule adopted by the mine operator. The main fans are the major life support system to the entire underground mining operation. The air flow provided by the fans assures fresh air to the miners at working faces, reduces the chance of the air reaching threshold limit values of airborne contaminants, and dilutes accumulations of possible explosive gases.

Title: Application for Literacy Information and Communication System (LINCS) Special Collection Development Partners Awards to organizations to support the creation and maintenance of subject specific web resources.

Abstract: The National Institute for Literacy (NIFL) was created by the National Literacy Act of 1991 and amended by the Workforce Investment Act of 1998 to provide a national focal point for literacy activities and to facilitate the pooling of ideas and expertise across a fragmented field. The Act authorizes the NIFL to conduct basic and applied research and demonstrations on literacy; collect and disseminate information to Federal, State, and local entities with respect to literacy; and improve and expand the system for delivery of literacy services. The NIFL will provide funding to organizations for the creation of in-depth literacy-related collections of subject specific information on LINCS. Evaluations to determine successful applications will be made by a panel of literacy experts and information specialists using the published criteria. The NIFL will use this information to make up to 10 cooperative agreement awards for a period of up to three years.

Burden Statement: The burden for this collection of information is estimated at 40 hours per response for the first year. This estimate includes the time needed to review instructions, complete the form, and review the collection of information. Request for Comments

Section 3506 of the Paperwork Reduction Act of 1995 (44 U.S.C. Chapter 35) requires that the Office of Management and Budget (OMB) provide interested Federal agencies and the public an early opportunity to comment on information collection requests. OMB may amend or waive the requirement for public consultation to the extent that public participation in the approval process would defeat the

purpose of the information collection, violate State or Federal law, or substantially interfere with any agency's ability to perform its statutory obligations. The NIFL Director publishes that notice containing proposed information collection requests prior to submission of these requests to OMB. Each proposed information collection contains a burden statement that includes the estimated burden hours and other relevant information.

Requests for copies of the proposed information collection request may be accessed from www.nifl.gov/lincs or comments regarding burden and/or the collection activity requirements should be addressed to William B. Hawk, National Institute for Literacy, 1775 I Street, NW, Suite 730, Washington, DC 20006. Requests also may be electronically mailed to the internet address whawk@nifl.gov or faxed to 202-233-2050.
