

**DEPARTMENT OF HEALTH AND HUMAN SERVICES**

**Centers for Disease Control and Prevention**

**Notice of Specific List for Categorization of Laboratory Test Systems, Assays, and Examinations by Complexity**

**AGENCY:** Centers for Disease Control and Prevention (CDC), Department of Health and Human Services (HHS).

**ACTION:** Notice with comment period.

**SUMMARY:** Regulations at 42 CFR 493.15 and 493.17, implementing the Clinical Laboratory Improvement Amendments of 1988 (CLIA), Public Law 100-578 (codified at 42 U.S.C. 263a), require that the Secretary provide for the categorization of specific laboratory test systems, assays, and examinations by level of complexity. The criteria for such categorizations also are set forth in those regulations.

This Notice announces the addition of: approximately 1,130 test systems, assays, and examinations categorized by CDC as moderate or high complexity with categorization notification to manufacturers between September 4, 1999 and January 31, 2000; and 46 test systems, assays, and examinations CDC determined as waived with notification to manufacturers between September 4, 1999 and February 28, 2000. HHS invites comments on the tests initially categorized in this Notice and reserves the right to reevaluate and recategorize tests based on the comments received in response to this Notice.

**DATES:** Effective date: All categorizations in this Notice were effective on the date of the test categorization notification letter sent to the manufacturer. Written comments on the tests initially categorized in this Notice will be considered if they are received at the address indicated below, by no later than 5 p.m. on June 2, 2000. HHS reserves the right to reevaluate and recategorize tests based on the comments received in response to this Notice.

**ADDRESSES:** Comments on the categorization of tests in this Notice should be addressed to CLIA **Federal Register** Notice, Centers for Disease Control and Prevention, Public Health Practice Program Office, Mail Stop F-11, 4770 Buford Highway, NE, Atlanta, Georgia 30341-3724.

**FOR FURTHER INFORMATION CONTACT:** Sharon Granade, (770) 488-8155.

**SUPPLEMENTARY INFORMATION:** CDC also maintains an electronic list of categorized tests which is available via

the Internet (<http://www.phppo.cdc.gov/dls/clia/testcat.asp>).

**Comments and Responses**

On September 23, 1999, a test list of approximately 5,700 test systems, assays, and examinations categorized by level of complexity was published in the **Federal Register** (64 FR 51590) with a 30 day comment period. CDC received no comment letters in regard to this Notice.

**Correction**

Upon reevaluation, the complexity categorization for the analyte Heparin Dose Response (2539) was changed from Moderate to High when performed using the following test systems:

ITC Factor VI (28093);

ITC HEMOCHRON 400 (28094);

ITC HEMOCHRON 401 (28095);

ITC HEMOCHRON 800 (28096);

ITC HEMOCHRON 801 (28097).

These systems require manual calculations and a manually plotted graph to calculate the final recommended heparin dose results.

Dated: April 26, 2000.

**Joseph R. Carter,**

*Associate Director for Management and Operations, Centers for Disease Control and Prevention.*

**List of Previously Unpublished Categorizations**

The test categorization scoring scheme was based on an assessment of the complexity of the operation of the test procedure and not on an evaluation of data documenting the procedure's performance over time. Therefore, the categorization of a test system, assay, or examination as moderate or high complexity should not be interpreted as an indication of the acceptability or unacceptability of the accuracy, precision, or overall performance of the procedure.

COMPLEXITY: MODERATE

SPECIALITY/SUBSPECIALITY:

Bacteriology

ANALYTE: Clostridium difficile (1022)

**TEST SYSTEM, ASSAY, EXAMINATION:**

BioStar CdTOX A OIA (08228)
