SUMMARY: This notice extends the comment period for **Federal Register**

Notice 00-8017 to May 30, 2000. A public information meeting will be held May 9, 2000 at the Wonder Valley Community Center located at 80526 $\frac{1}{2}$ Amboy Road in Wonder Valley, California. Bureau of Land Management officials will be available from 5:00 to 8:00 P.M. to meet with concerned citizens and answer questions regarding **Federal Register** Notice 00-8017.

Federal Register Notice 00-8017 proposes that on those public lands administered by the BLM and bounded to the west by the corporate limits of the City of Twentynine Palms, California, the south by Joshua Tree National Park, the north by the Marine Corps Air Ground Combat Center and the east by Range 11 East, San Bernardino Meridian, it would be prohibited to fire any firearm except shotguns with shot shells containing shot no larger than one-half the diameter of the bore. This proposed supplemental rule would not affect the legitimate and legal pursuit of game or shooting at controlled, permitted ranges.

DATES: Comments regarding **Federal Register** Notice 00-8017 must be received in writing to the BLM by May 30, 2000. Written comments shall be mailed to the following addresses: Mr. Tim Read, Field Manager, Bureau of Land Management, Barstow Field Office, 2601 Barstow Road, Barstow, CA 92311.

SUPPLEMENTARY INFORMATION:

Uncontrolled recreational shooting on public land creates a public health and safety hazard by firing solid projectile firearms (such as rifles and pistols), that have a long range, into and about a populated rural area. The area of concern also receives heavy recreational use by equestrians, recreational miners and off-highway vehicles. BLM has received complaints from area residents and recreationist that have nearly been struck by stray bullets from recreational shooting. The proposed supplemental rule would prohibit the firing of any firearm except shotguns with shot shells containing shot no larger than one-half the diameter of the bore. Rounds of this type have less energy and travel considerably shorter distances than solid projectiles (such as those fired from a rifle or pistol). By prohibiting all but low energy, short range gunfire, a safer environment on both public and private lands within this populated area will be created. This proposed supplemental rule only affects public lands administered by BLM and would not affect the legitimate and legal pursuit of game or shooting at controlled, permitted ranges. This proposed supplemental rule will not
