The Proposal

The FAA is considering an amendment to part 71 of the Federal Aviation Regulations (14 CFR part 71) to establish Class D airspace at Stuart, FL. Air traffic controllers at Witham field in Stuart, FL, are being certificated as weather observers. Therefore, the airport will meet criteria for Class D airspace. Class D surface area airspace is required when the control tower is open to accommodate current SIAP and for IFR operations at the airport. Class D airspace designations for airspace areas extending upward from the surface are published in Paragraph 5000 of FAA Order 7400.9G, dated September 1,

1999, and effective September 16, 1999, which is incorporated by reference in 14 CFR 71.1. The Class D airspace designation listed in this document would be published subsequently in the Order.

The FAA has determined that this proposed regulation only involves an established body of technical regulations for which frequent and routine amendments are necessary to keep them operationally current. It, therefore, (1) is not a "significant regulatory action" under Executive Order 12866; (2) is not a "significant rule" under DOT Regulatory Policies and Procedures (44 FR 11034; February 26, 1979); and (3) does not warrant preparation of a Regulatory Evaluation as the anticipated impact is so minimal. Since this is a routine matter that will only affect air traffic procedures and air navigation, it is certified that this rule, when promulgated, will not have a significant economic impact on a substantial number of small entities under the criteria of the Regulatory Flexibility Act.

The Proposal

The FAA is considering an amendment to part 71 of the Federal Aviation Regulations (14 CFR part 71) to establish Class E airspace at Dunlap, TN. A GPS SIAP, helicopter point in space approach, has been developed for North Valley Medical Center. Controlled airspace extending upward from 700 feet AGL is needed to accommodate the SIAP. Class E airspace designations for airspace areas extending upward from 700 feet or more above the surface are published in Paragraph 6005 of FAA Order 7400.9G, dated September 1, 1999, and effective September 16, 1999, which is incorporated by reference in 14 CFR 71.1. The Class E airspace

designation listed in this document would be published subsequently in the Order.

The FAA has determined that this proposed regulation only involves an established body of technical regulations for which frequent and routine amendments are necessary to keep them operationally current. It, therefore, (1) is not a "significant regulatory action" under Executive Order 12866; (2) is not a "significant rule" under DOT Regulatory Policies and Procedures (44 FR 11034; February 26, 1979); and (3) does not warrant preparation of a Regulatory Evaluation as the anticipated impact is so minimal. Since this is a routine matter that will only affect air traffic procedures and air navigation, it is certified that this rule, when promulgated, will not have a significant economic impact on a substantial number of small entities under the criteria of the Regulatory Flexibility Act.

[Airspace Docket No. 00-ASO-10]

Proposed Amendment of Class E Airspace; Savannah, GA

AGENCY: Federal Aviation Administration (FAA), DOT.

ACTION: Notice of proposed rulemaking.

SUMMARY: This action proposes to amend Class E surface area airspace at Savannah, GA. Hunter Army Air Field (AAF) is included in the Savannah Class D surface airspace area. However, when Hunter AAF control tower closes that segment of the Class D airspace area reverts to Class G airspace, as there is no remote communications to either Savannah Approach Control or Jacksonville Air Route Traffic Control Center (ARTCC) to control aircraft at Hunter AAF. Remote communications equipment is being installed and is expected to be operational on or about June 1, 2000. As a result, additional controlled airspace extending upward from the surface is needed to accommodate instrument flight rules (IFR) operations at Hunter AAF when Hunter AAF control tower is closed. This proposal will also make a technical amendment to the name of the location, changing it from Savannah International Airport, GA, to Savannah, GA.

DATES: Comments must be received on or before June 5, 2000.

ADDRESSES: Send comments on the proposal in triplicate to: Federal Aviation Administration, Docket No. 00-ASO-10, Manager, Airspace Branch, ASO-520, P.O. Box 20636, Atlanta, GA 30320.
