suggested in question 1.B. above? Would such a requirement assist in creating a clearer public record? How burdensome would such a requirement be?

3. Should the Office accept deposits in formats other than those mentioned in item 1? If so, what other formats should be accepted? Each format must be capable of providing a complete image of each photograph in the group.

4. For photographs submitted on CD-ROMs or in other electronic formats, what file formats (e.g., JPEG, GIF, etc.) should be accepted, and why?

5. As an alternative to requiring a claimant to provide the date of publication of each photograph in the group, should the Office consider offering the alternative of providing a range of dates over a three-month period (e.g., January 1–March 31, 2001)? What would be the advantages and disadvantages—to claimants and to the public record—of such an approach?

(v) The deposit(s) and application must be accompanied by the fee set forth in § 201.3(c) of this chapter for a basic registration using Form VA.

(vi) The applicant must note on the application Form VA the approximate number of photographs included in the group.

Endangered and Threatened Species; Proposed Endangered Status for White Abalone

AGENCY: National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration (NOAA), Commerce.

ACTION: Proposed rule; request for comments.

SUMMARY: NMFS has completed a comprehensive status review of the white abalone (Haliotis sorenseni) under the Endangered Species Act (ESA). Based on the findings from the status review and a review of the factors affecting the species, NMFS has concluded that white abalone is in danger of extinction throughout a significant portion of its range. Accordingly, NMFS is now issuing a proposed rule to list white abalone as an endangered species. NMFS is not proposing to designate critical habitat for white abalone at this time, but is requesting public comments on the issues pertaining to this proposed rule.

DATES: Comments must be received no later than 5 p.m., Pacific daylight time, on July 5, 2000.

Requests for public hearings must be received by June 19, 2000. If NMFS receives a request for public hearings, it will announce the dates and locations of the public hearings in a later Federal Register notice.

ADDRESSES: Comments on this proposed rule and requests for public hearings or reference materials should be sent to the Assistant Regional Administrator, Protected Resources Division, NMFS, Southwest Region, 501 West Ocean Blvd., Suite 4200, Long Beach, CA 90802–4213. Comments may also be sent via facsimile (fax) to 562–980–4027, but they will not be accepted if submitted via e-mail or Internet.

FOR FURTHER INFORMATION CONTACT: Irma Lagomarsino, 562–980–4020; or Marta Nammack/Terri Jordan, 301–713–1401, or send a request via electronic mail to whiteab.info@noaa.gov.

SUPPLEMENTARY INFORMATION:

Background

Based on information indicating a major decline in abundance, NMFS designated the white abalone, a marine invertebrate, as a candidate species under the ESA of 1973, as amended (16 U.S.C. 1531 et seq.), on July 14, 1997 (62 FR 37560). In August 1996, NMFS contracted with Scripps Institution of Oceanography (SIO) to conduct a review of the biological status of white abalone, including the current and historical impacts to the species. NMFS received the draft status review on April 21, 1999, from SIO. In order to obtain an independent peer-review, NMFS requested that three non-federal scientists review and report on the scientific merits of the status review. By August 1999, NMFS received these anonymous reviews; NMFS scientists also reviewed the document. Subsequently, SIO incorporated all of these comments into the status review, and submitted the revised final status review document to NMFS on March 20, 2000.

NMFS received a petition on April 29, 1999, from the Center for Biological Diversity and the Southwest Center for Biological Diversity to list white abalone as an endangered species on an emergency basis and designate critical habitat under the ESA. On May 17, 1999, NMFS received a second petition to list white abalone as an endangered species throughout its range and designate critical habitat under the ESA from the following organizations: the Marine Conservation Biology Institute, Abalone and Marine Resources Council, Sonoma County Abalone Network, Asociacion Interamericana para la Defensa del Ambiente, Channel Islands
