SUPPLEMENTARY INFORMATION:

Overview

The United States Department of Justice, Office of Community Oriented Policing Services (COPS) has been charged with the implementation of the Public Safety Partnerships and Community Policing Act of 1994 (42 U.S.C. 3976dd). Under this law, the COPS Office provides grants, cooperative agreements, and technical assistance to increase police presence, improve police and community partnerships designed to address crime and disorder, and enhance public safety. The VFP, which complements the COPS Office's efforts to add 100,000 officers to our nation's streets and support innovative community policing, is one of a wide variety of policing programs supported under this law.

The VFP is intended to offer researchers, policing professionals, community leaders, and policy analysts an opportunity to undertake independent research, problem development activities, and policy analysis designed to advance community policing in a variety of ways.

Two types of fellowships are available: Community Policing Training and Technical Assistance Fellowships and Program/Policy Support and Evaluation (PPSE) Fellowships.

Community Policing Training and Technical Assistance Fellowships will offer police practitioners and community leaders the opportunity to participate in a community policing training program that is national in scope. Fellows will work to broaden their knowledge of a training area that is directly related to community policing. The experience is intended to encourage the further development, enhancement, or renewed exploration of a particular training expertise that supports community policing. Fellows will deliver this expertise innovatively as well as provide technical assistance to others. Under Community Policing Training and Technical Assistance Fellowships, Fellows may pursue initiatives designed to: (1) Improve police-citizen cooperation and communication; (2) enhance police relationships within the criminal justice system, as well as at all levels of local governments; (3) increase police and citizens' ability to innovatively solve community problems; (4) facilitate the restructuring of agencies to allow the fullest use of departmental and

community resources; (5) promote the effective flow and use of information both within and outside of an agency; and/or (6) improve law enforcement responsiveness to members of the community.

PPSE Fellowships will offer police practitioners, researchers, and policy analysts the opportunity to support innovative community policing programs, to engage in activities to assess the effectiveness of community policing approaches, and to apply policy analysis skills to support the advancement of community policing nationwide. The experience is intended to encourage the further development, enhancement, or renewed exploration of program, policy, and evaluation issues that support community policing. This work will be shared with policy makers and practitioners through a variety of forums. Under PPSE Fellowships, Fellows may pursue a wide variety of initiatives. Topic areas of particular interest to the PPSE Division include, but are not limited to, the following goals: (1) Improve the ability of policing agencies and community organizations to collect different types of information that will aid in collaborative problem solving efforts; (2) enhance current knowledge of how policing agencies evolve while implementing community policing; (3) enhance current knowledge about how various policing agencies utilize information technology to support crime reduction and community policing efforts; and/or (4) enhance current knowledge of or improve the ability of policing agencies to implement community policing and problem solving in other ways.

Visiting Fellows will study a topic of mutual interest to the Fellow and the COPS Office for up to 12 months. Residency in Washington, DC, is not required, but visits to the COPS Office are encouraged.

Grants or cooperative agreements under the VFP may support salary, fringe benefits, travel essential to the project, and miscellaneous supplies or equipment in support of the project. Reasonable costs for research assistants or support staff will also be considered. Reasonable relocation expenses and the cost of temporary housing also may be permitted in cases of relocation from a Fellow's permanent address.

Under the VFP, the COPS Office may award grants or enter into cooperative agreements with individuals, public agencies, colleges or universities, nonprofit organizations, and profit-making organizations willing to waive their fees.

Receiving a grant or cooperative agreement under the VFP will not affect

the eligibility of an agency to receive awards under other COPS programs.

The selection process is expected to be highly competitive.

(The Catalog of Federal Domestic Assistance (CFDA) reference for this program is 16.710.)

Drug Enforcement Administration

Manufacturer of Controlled Substances; Notice of Registration

By Notice dated January 28, 2000, and published in the **Federal Register** on February 9, 2000, (65 FR 27), Mallinckrodt, Inc., Mallinckrodt & Second Streets, St. Louis, Missouri

63147, made application by letter to the Drug Enforcement Administration (DEA) to be registered as a bulk manufacturer of dihydromorphine (9145), a basic class of controlled substance listed Schedule I.

Mallinckrodt, Inc. plans to isolate dihydromorphine as a step in a multistep synthesis of hydromorphone.

DEA has considered the factors in Title 21, United States Code, Section 823(a) and determined that the registration of Mallinckrodt, Inc. to manufacture dihydromorphine is consistent with the public interest at this time. DEA has investigated Mallinckrodt, Inc. on a regular basis to ensure that the company's continued registration is consistent with the public interest. These investigations have included inspection and testing of the company's physical security systems, verification of the company's compliance with state and local laws, and a review of the company's background and history. Therefore, pursuant to 21 U.S.C. 823 and 28 CFR 0.100 and 0.104, the Deputy Assistant Administrator, Office of Diversion Control, hereby orders that the application submitted by the above firm for registration as a bulk manufacturer of the basic class of controlled substance listed above is granted.

Dated: April 25, 2000.

John H. King,

Deputy Assistant Administrator, Office of Diversion Control, Drug Enforcement Administration.
