Organophosphate Pesticides; Availability of Preliminary Risk Assessments

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice.

SUMMARY: This notice announces the availability of documents that were developed as part of the EPA's process for making reregistration eligibility decisions for the organophosphate pesticides and for tolerance reassessments consistent with the Federal Food, Drug, and Cosmetic Act (FFDCA), as amended by the Food Quality Protection Act of 1996 (FQPA). These documents are the preliminary human health risk assessments and related documents for malathion. This notice also starts a 60-day public comment period for the preliminary risk assessments. Comments and data are to be limited to issues directly associated with the organophosphate pesticide that has risk assessments placed in the docket and should be limited to issues raised in those documents. By allowing access and opportunity for comment on the preliminary risk assessments, EPA is seeking to strengthen stakeholder involvement and help ensure our decisions under FQPA are transparent and based on the best available information. The tolerance reassessment process will ensure that the United States continues to have the safest and most abundant food supply. The Agency

cautions that these risk assessments are preliminary assessments only and that further refinements of the risk assessments will be appropriate for some, if not all, of these organophosphate pesticides. These documents reflect only the work and analysis conducted as of the time they were produced and it is appropriate that, as new information becomes available and/or additional analyses are performed, the conclusions they contain may change.

DATES: Written comments and data on these assessments, identified by the docket control number OPP-34223, must be received on or before July 10, 2000.

ADDRESSES: Comments and data may be submitted by mail, electronically, or in person. Please follow the detailed instructions for each method as provided in Unit I. of the **SUPPLEMENTARY INFORMATION**. To ensure proper receipt by EPA, it is imperative that you identify the docket control number in the subject line on the first page of your response.
