Alcoa Point Comfort/Lavaca Bay NPL Site, Point Comfort, TX: Notice of Availability and Request for Comments on a Revised Draft Damage Assessment and Restoration Plan/Environmental Assessment for Recreational Fishing Service Losses

AGENCIES: National Oceanic and Atmospheric Administration (NOAA), Commerce; United States Department of the Interior (DOI); Texas Parks and Wildlife Department (TPWD); Texas General Land Office (TGLO); and Texas Natural Resources and Conservation Commission (TNRCC).

ACTION: Notice of availability of a Revised Draft Damage Assessment and Restoration Plan and Environmental Assessment for recreational fishing service losses associated with the Alcoa Point Comfort/Lavaca Bay National Priorities List (NPL) Site, and of a 30-day period for public comment on the plan beginning May 12, 2000.

SUMMARY: Pursuant to 43 CFR Sections 11.32 and 11.81—.82, notice is hereby given that a document entitled, “Revised Draft Damage Assessment and Restoration Plan and Environmental Assessment for the Point Comfort/Lavaca Bay NPL Site Recreational Fishing Service Losses” (Revised Draft DARP/EA) is available for public review and comment. This document describes revisions to the Draft Damage Assessment and Restoration Plan and Environmental Assessment (Draft DARP/EA), which was released for public review and comment on September 28, 1999. The Draft DARP/EA described the assessment of recreational fishing service losses attributable to hazardous substances released from the Alcoa Point Comfort/Lavaca Bay NPL Site (‘Lavaca Bay Site’ or ‘Site’) and the restoration actions preferred to compensate for those losses. As a result of the public comments received on the Draft DARP/EA, the restoration alternatives identified to compensate for such losses have been revised. The Revised Draft DARP/EA summarizes these public comments and identifies changes to the restoration plan that were determined to be necessary in light of the comments and other information received. The Revised Draft DARP/EA is being released to allow public comment on the revised restoration alternatives now proposed for inclusion in the Final DARP/EA for the recreational fishing service losses.

DATES: Comments on the Revised Draft DARP/EA must be submitted in writing on or before June 12, 2000.

ADDRESSES: Requests for copies of the Revised Draft DARP/EA should be sent to Richard Seiler of TNRCC, MC142, P.O. Box 13087, Austin, TX 78711-3087 or Tony Penn of NOAA, 1305 East West Highway, Station 10218, Silver Spring, MD 20910. Written comments on the plan should be sent either to Richard Seiler of TNRCC or Tony Penn of NOAA at the addresses listed above.

SUPPLEMENTARY INFORMATION: The Alcoa Point Comfort/Lavaca Bay NPL Site is located in Point Comfort, Calhoun County, Texas and encompasses releases of hazardous substances from Alcoa’s Point Comfort Operations facility. Between 1948 and the present, Alcoa constructed and operated several types of manufacturing processes at this facility, including aluminum smelting, carbon paste and briquette manufacturing, gas processing, chlor-alkali processing, and alumina refining. Past operations at the facility resulted in the release of hazardous substances into the environment, including the discharge of mercury-containing wastewater into Lavaca Bay from 1966 to 1970 and releases of mercury into the bay through groundwater. In April 1988, the Texas Department of Health (TDH) issued a “closure order” prohibiting the taking of finfish and crabs for consumption from a specific area near the facility due to elevated mercury concentrations in these resources.

The Alcoa Point Comfort/Lavaca Bay Site was added to the NPL, pursuant to Section 105 of the Comprehensive Environmental Response, Compensation and Liability Act (CERCLA), 42 U.S.C. 9601, effective on March 25, 1994 (59 FR 8724; February 23, 1994). The Site was listed primarily due to the presence of mercury in several species of fish and crab in Lavaca Bay, the fishing closure imposed by TDH, and the presence of mercury and other hazardous substances in bay sediments adjacent to the facility. Alcoa, the State of Texas and the U.S. Environmental Protection Agency (EPA) signed an Administrative Order on Consent (AOC) under CERCLA in March 1994 providing for the conduct of a remedial investigation and feasibility study (RI/FS) for the Site.

NOAA, DOI, TPWD, TGLO and TNRCC (collectively, the Trustees) are designated natural resource trustees under Section 107(f) of CERCLA, Section 311 of the Federal Water Pollution and Control Act (FWPCA), 33 U.S.C. Section 1321, and other applicable federal or state laws, including Subpart G of the National Oil
