**AGENCY:** Department of Defense.

**DATES:** Comments must be received no later than June 26, 2000.

**SUPPLEMENTARY INFORMATION:** The DoD has a bilateral reciprocal defense procurement MOU with each of the countries identified above. These MOUs are designed to promote interoperability and standardization of defense equipment between the U.S. and its allies. The MOUs also seek to eliminate buy-national barriers and other discriminatory procurement practices so that the industries of each country receive fair and equal access to each other's defense procurements. The Office of Foreign Contracting will be performing reviews of the manner in which these MOUs are being implemented and is interested in obtaining information on any discriminatory practices that hinder the ability of U.S. suppliers to compete for defense-related procurements within any of these countries. Problem areas could include: Inability to locate publication notices on upcoming procurements, difficulty in obtaining solicitations in a timely manner, inadequate response time for offers, issues associated with application of customs duties, buy-national practices that favor other than U.S. industry, imposition of offset requirements, inability to obtain debriefing information, inability to protest source selection decisions, and protection of proprietary information as well as any other discriminatory practice that needs to be addressed.

All materials should be submitted with 3 copies. Material that is business confidential information will be exempted from public disclosure as provided for by 5 U.S.C. 552(b)(4) (Freedom of Information Act (FOIA) rules).
