II. Background

FQPA, Public Law 104-170 was passed in 1996 to strengthen the nation's system for regulating pesticides on food. CARAT is preceded by the Tolerance Reassessment Advisory Committee (TRAC), a previous joint advisory committee which existed from April 1998 through October 1999 in response to Vice President Gore's request for EPA and USDA to work together to ensure smooth implementation of the Food Quality Protection Act. Consistent with the important principles established by the Vice President in April 1998, EPA and USDA will work together and guide their implementation efforts by: applying sound science to all decisions; making our regulatory process transparent; providing appropriate reasonable transition mechanisms that will reduce risk but not jeopardize our nation's agriculture and its farm communities; and consulting with interested constituencies.

CARAT is co-chaired by EPA Acting Deputy Administrator Michael McCabe and USDA Deputy Secretary Richard Rominger. Among its objectives will be such issues as: Identifying opportunities for reasonable transition and strategic pest management planning for agriculture and public health uses of pesticides; providing advice to promote sound science and transparency in the scientific risk assessments necessary to implement the FQPA, including tolerance reassessment and pesticide reregistration; and assuring appropriate priority is given to risk management strategies for the pesticides that are most likely to lead to exposures to children.
